SURPRISES IN RAIL STRIKE
Heads of Eastern Roads Due from Europe

Steel Corporations Grant Wage Increase

Brotherhoods Propose New Peace Plan

(BY A. P. NIGHT WIRE.)
NEW YORK, Aug. 22.—Four surprise factors entered into the rail strike situation today, any one of which, according to representatives of roads and brotherhoods, may vitally influence the action of the Association of Railroad Executives when it meets tomorrow to consider peace proposals for mediation with the Big Five brotherhoods.

(1.) The announcement that presidents of three powerful eastern roads, Samuel Rea of the Pennsylvania, E. E. Loomis of the Lehigh Valley, and William Bester of the Jersey Central, were expected to arrive from Europe on the Atlantic in time to participate in the conference of the Association of Railroad Executives.
(2.) The grant by three large steel corporations of a 30 per cent increase in wage to their several hundred thousand day laborers.
(3.) Assertion by L. F. Loree, president of the Delaware, Hudson, and chairman of the Eastern Presidents' Conference that predictions of a strike settlement and peace in the industry were "all bunk."

(4.) Announcement that several brotherhood chiefs are en route from the West with practical proposals for settlement of the shopcrafts' strike, which they will submit to rail executives if all other advances fail.

INTERPRET INCREASE
Heads of the railway executives refuse to comment on the unexpected arrival of the three eastern presidents. Their return on the same boat, and in the midst of the present crisis, was admittedly significant, however, especially since their respective vice-presidents have been the nucleus of the group which, in conference of the national association, has consistently fought against any peace plan which included reinstatement of strikers with seniority rights unimpaired.

The decision of the steel corporations to raise the wages of laborers just 24 hours prior to the scheduled meeting of the executives was hailed by the strikers as a point in their favor. It not only justified their refusal to accept wage cuts fixed by the Railroad Labor Board, they said, but was ample proof of an impending industrial boom which would put the railroads, with their thousands of bad order cars, more than ever in need of their old repair forces.

STRIKERS GRATIFIED
"This wage increase will put considerable fire into the veins of railroad labor," declared David Williams, secretary of the eastern strike committee. "The railroad man will find it hard to understand why he should get \$2.75 a day when he could get \$4 for the same work in the steel mills."

Rail heads refrained from discussion of the possible effects of the steel company's move on rail strike negotiations. They were, nevertheless, quick to offer numerous reasons why the steel industry should grant their men a raise at this critical stage.

One was that some of the steel corporation bankers who also are large investors in the railroads took such means of making untenable the position of strikers maintained by the eastern "die hards" headed by L. F. Loree that the strike be allowed to continue as a "final fight," rather than it be settled by returning seniority rights to the strikers.

DIE HARDS SKEPTICAL
In other quarters, the raise to steel men was interpreted as an attempt to forestall a shortage of labor when coal mines get into full action again and roads are called upon to take up the additional burden of record crop movements. Still others declared it might bring the wage question back to complicated the strike, which now has simmered down to a battle over seniority rights.

Although Mr. Loree today disclaimed any intention of putting the brakes on strike negotiations, after declaring that "this talk of peace is all bunk," other members of the Eastern Presidents' Conference, voicing similar views, indicated they will enter tomorrow's conference as a "blot" to oppose any plan for the restoration of seniority.

Despite continued assertions of rail chiefs that they will enter the conference without having before them any definite proposal as a result of their executive committee's two-day conference with the big five last week, reports persist in labor circles that several such proposals were laid before the carrier representatives.

In each case, full restoration of seniority was said to have been the outstanding feature. One such plan, revealed in labor sources tonight, was said to have been written by Secretary of Commerce Hoover and an official of the Brotherhood of Engineers, containing provisions similar to President Harding's last proposal, cloaked in new words.

BALLOT TOMORROW
On the seniority question, strikers would return with full rights as of July 1. Loyal employees would retain former rights, plus rights since July 1. New men, taken on since the strike was called, would have rights dating from July 1. Under this plan, the strikers would lose seniority rights for only the eight weeks the strike now has been in progress.

BOMBS THROWN; TERROR REIGNS
(Continued from First Page)

vicinity of the latest bomb outrage. No arrests had been made up until a late hour, however. The Santa Fe yards in San Bernardino today became practically an armed camp when railroad guards were doubled inside the company stockade and deputy sheriffs and Federal forces armed with revolvers patrolled the outside.

Additional guards were posted inside the stockade following the single-handed attack on the railroad roundhouse by Juan Juarez, a striking shopman, and the shooting of three men in the act of firing into the roundhouse is also in the County Jail.

SAY ACT JUSTIFIED
Santa Fe officials here last night declared that the shooting by Wiley that resulted in the death of W. V. Paschal, a striking electrician, and serious injury to R. L. Followell, striking machinist, and Cyril Stearns, also a striking shopman, was justified.

According to the General Manager Breer, Wiley left the railroad yards where he was employed as a cook and was on his way up town when attacked by seven strikers. One of the strikers according to the information in the County Jail, the officials drew a revolver and then Wiley fired. Four of the rioting strikers were shot and three were shot down by Wiley before he was disarmed by the police.

ATTACKS ROUNDHOUSE
Juarez according to the arresting officers, obtained a revolver in his hands just outside of the railroad stockade. He had fired two shots into the roundhouse before the officers reached him, they say, and was preparing to empty his revolver.

First reports from near Nelson, (Ariz.) that two Santa Fe passenger trains had been wrecked by strikers were denied yesterday by Santa Fe officials here. It was announced that an extra freight train and a work train crashed into each other near Nelson and that one man had been killed and five injured.

The dead and injured are: E. J. Kennedy, timberer for Sharp & Fellows, contractors, dead. Ralph Ross, Sharp & Fellows engineer, cut out face and hands. George Beck, Sharp & Fellows employee, cut and bruised. J. E. Jenkins, Sharp & Fellows employee, scalped.

R. C. Taggart, brakeman, toes of right foot amputated. George Schmidt, brakeman, shoulder dislocated. According to reports received here by the railroad officials the engineer of one of the trains involved in the accident became confused, or received the wrong orders, and drove his train over the main track instead of taking a switch near Nelson. All of the injured are being brought to this city.

The collision was reported Monday at 5:40 p.m. and a wrecking crew was rushed to the scene from Needles. The wrecked train, the main Santa Fe line was held up for over two hours while the wreckage of the two engines was cleared away with cranes.

TEMPORARY INJUNCTION
The Pacific Fruit Express Company yesterday obtained a temporary order restraining striking railroad men from interfering with the operation of their icing plant at Colton. The order was signed by Federal Judge Trippett, who set the 31st inst. for a hearing of the order to show cause why the temporary order should not be made permanent.

Officials of the Pacific Fruit Express declared in their request for the order that strikers from San Bernardino are in the habit of driving to Colton in automobiles and molesting their workmen and causing them to leave the icing plant through fear of violence.

On the southern Pacific and Union Pacific systems no acts of violence were reported yesterday to the officials or authorities. Southern Pacific shops are under guard of railroad police and deputy sheriffs and the large Union Pacific shops at Las Vegas are guarded by State police.

WILEY BROUGHT HERE
Late yesterday afternoon Wiley was removed from the San Bernardino County Jail by Sheriff Shay and four deputies armed with sawed-off shotguns and taken by automobile to the County Jail here. After arriving at the County Jail Sheriff Shay stated that he ordered the transfer because he feared an attack on the jail in San Bernardino by the strikers.

A coroner's inquest over the body of Paschal will be held today in San Bernardino and probably the entire matter will be placed before the San Bernardino grand jury in the meantime Wiley will remain in the jail here.

Strikers yesterday called on Sheriff Shay and requested him to see that the local shop workers in the Santa Fe yards be ordered to remain behind the company stockade. Sheriff Shay refused to issue the order and notified the strikers that the rights of citizens must be respected.

PEACE SPREADS IN COAL FIELDS
Operators and Miners in Two States Make Peace

Settlement Hoped for at Kansas City

Anthracite Representatives Fail to Agree

(BY A. P. NIGHT WIRE.)
CHICAGO, Aug. 22.—Soft coal operators and miners in two more States made peace today but anthracite operators and miners' representatives meeting in Philadelphia adjourned a point conference subject to call without reaching an agreement.

Illinois and Indiana miners were prepared to enter the pits tomorrow. They followed the lead of Michigan, Iowa and Wyoming miners who yesterday concluded agreements with operators. Southwestern operators and miners were holding a conference at Kansas City in an effort to bring about a settlement.

The peace negotiations already completed caused the Department of Labor to estimate the weekly bituminous coal production at 5,000,000 tons within a week. All the agreements thus far concluded in the bituminous industry have been based on the settlement concluded at Cleveland last week between John L. Lewis, president of the United Mine Workers of America, and his associates and operators from seven States. By the terms of this agreement the miners returned to work at the same wage scale and under the same working conditions as when they struck on April 1, 144 days ago.

LOOK TO FUTURE
This agreement is effective until March 31, next, with provision for a fact-finding commission to investigate the coal industry and the selection of a subcommittee of operators and miners at a joint conference at Cleveland on October 2 to determine methods of negotiating future wage scales.

The agreement between Illinois miners and operators came after almost continuous conferences lasting in the bituminous industry, and miners' joint committees and committees.

Today's agreement merely provides for continuing present wages and working conditions until March 31, next, eliminating the clause providing for negotiations for future wage scales.

This clause is to be supplanted by the Cleveland plan of negotiation. The settlement of the Illinois miners' union announced tonight that every Illinois operator had signed the agreement and said that all men had been ordered back to work in this State. He predicted normal production by Monday if the trains were able to move coal.

SUPPLY ASSURED
President Kavanaugh of the operators' association of the Fifth and Ninth districts declared that production in two weeks' time would be sufficient to supply the householders. He asserted that one result of the strike would be the enactment of legislation by the Federal Fuel Administration if it is my honest opinion that all operators will abide by that price," said Mr. Kavanaugh.

He said the operators surrendered because of the demand of the public. Dr. F. C. Honnold, secretary of the Illinois Coal Operators' Association, estimated the loss to the industry in the strike at \$15,000,000 for the period, or \$50,000,000 for the 90,000 miners in the State. The idle-day cost to the mining companies he estimated at \$15,000,000. He said the consumers probably have paid an average excess in price and freight of \$3 a ton for 10,000,000 tons, a possible total of \$30,000,000.

Killed in Line of Duty, Verdict in Case of Beck
(EXCLUSIVE DISPATCH.)
WASHINGTON, Aug. 22.—A finding of "killed in line of duty" has been returned by the board of army officers which investigated the death of Lieut. Col. Paul Ward Beck, killed in action at San P. Day of Oklahoma City, it was learned here today.

This sensational case, which involved the beautiful young wife of Judge Day, was dropped by the local civil authorities of Oklahoma City following a coroner's inquest at which Judge Day admitted the Army officer was killed by a shot from Day's gun which was discharged during a struggle between the two men.

Day testified that he had come home and discovered Beck attacking his wife.

HARBOR AT NAPLES RULED BY FASCISTI
FULL MILITARY OCCUPATION OF PORT ORDERED AFTER CLASHES WITH POLICE

(BY CABLE AND ASSOCIATED PRESS.)
NAPLES, Aug. 22.—The harbor of Naples is practically under the control of the Fascisti. One shed alone is held by the Communists. The national flag was hoisted over the port buildings held by the Fascisti. The latter occupied most of the port only after storming it in an attack led by Capt. Padovani.

LONDON, Aug. 22.—A complete military occupation of the port of Naples was ordered today following a series of clashes between the Fascisti and the police, according to a dispatch to the Exchange Telegraph from Rome. The Fascisti had seized a number of ships in the harbor, says the dispatch, and threatened the authorities to adopt rigid measures.

RED LEADERS ESCAPE RAID
(Continued from First Page)

president of the Trades Union Educational Society. Three nights ago when State's Attorney Crowe's men raided Foster's office here to try to link him with the Gary wreck, when a train was deliberately derailed and two trainmen died, the Federal Department of Justice announced that the raid was needless because they had been on Foster's trail continually for a long time and knew every move he had made.

Ring of operatives, aided by Berrien county police, was on hand early Sunday morning, lying in wait in the bushes around the convention house, hidden deep in the forest near Bridgman. All day long and all that night they waited, watching the Reds, known by name and eight to them as ringleaders in Communism, as they arrived, one by one or in pairs for their meeting on one of the outskirts of way spots in this region.

This morning the convention opened and the detectives closed in on the clearing in the woods. But some one had "tipped off" Foster and his cohorts and as the Federal men came crashing through doors and windows, there was a mad rush for the woods. Foster, prize of the party, escaped as did most of the others. Immediately riot calls were sent, out all along the way to Chicago in the hope of finding the radicals before they could reach the metropolis.

From Washington came immediate demand on Col. Roy C. Vandercok, Commissioner of Safety at Lansing for State troops to search all of Berrien county and they went into the woods last night.

Truck loads of Red literature and correspondence were seized and skilled investigators immediately began reading them to see if they could find information on the alleged revolutionary program of Foster's followers.

Immigration authorities also will decide tomorrow whether most of the men arrested are not liable for deportation.

Those arrested in yesterday's raid were: C. E. Ruppenberg, national executive secretary of the Workers' Party of America; Cleveland; William F. Dunn, labor editor of "The Workers," a Communist paper; Caleb Harrison and Charles Erickson, Chicago; W. Bernhardt, Detroit; Max Larson, Seattle; Cyril Lampkin, Detroit; Francis Eshworth, Camden, N. J.; Alex Vall, Philadelphia; Charles Krumbine, New York; T. R. Sullivan, St. Louis; John Mihlie, Kansas City; E. McMillin, St. Louis, and Thomas O'Flaherty, New York.

An increase from \$1000 to \$5000 to the reward for the arrest of the persons who wrecked the Michigan Central railroad train near Gary Sunday morning was announced tonight by Martin Quinn, chief special agent of the railroad.

CREW OF SEAPLANE PICKED UP AT SEA
(BY A. P. NIGHT WIRE.)
WASHINGTON, Aug. 22.—Lieut. Hinton, pilot, and the members of the crew of the seaplane Sam-palo Corrells, which left Nassau in the Bahamas today for Haiti in its flight from New York to Brazil, were picked up by the U.S. Navy at 1 p.m. in latitude 18, north, longitude 74.33, were according to a wireless message to the naval communication service here tonight from Guantanamo.

All those on board the craft were understood to be included of the crew had been rescued, the report that "the members saved."

"Roomy" Shoes Don't Always Fit
Because shoes are big and "roomy" does not mean that they will be comfortable. They are apt to rub in the wrong places and give no support where they should.
Ground Gripper Shoes are scientifically made—not too big—but to fit the foot snugly, giving just the proper support to the arch and other points where needed. The lines of Ground Gripper Shoes "swing" with the lines of the foot without cramping, and the natural shape of the foot is retained at all times.
Ground Gripper Shoes are not big and cumbersome but are snug fitting, good looking and scientifically sensible.

TRAPSHOOTERS CLASH SUNDAY

As a means to close up the greatest summer shooting season the Vernon Gun Club has had since it was founded, seven years ago, a double bill of gunning will be put on next Sunday. The final registered shoot of the season and a shoot in honor of Don Morrison, the popular professional shooter from the Peters Cartridge Company, are to be put on. The registered event will be at 100 targets at 16 yards, with American Trapshooting Association and Vernon take-home trophies up for the winner.

Lowly Portlanders to Open With Bengals

TIGERS MEET DUCKS TODAY

Beavers and Vernon to Play Double-Header

Esick's Lads in Fine Shape and Going Great

Seals Have Hard Series in Front of Them

Special announcement—ladies and gentlemen—this afternoon at Washington Park Bill Esick and his bunch of jungle babes will grab a double-header from Jimmy Middleton's Portland Derelicts.

The first game begins at 1:30 o'clock and the second victory will be launched on its way about 3:30 o'clock or thereabouts. Owing to a strike among the bookmakers' Benevolent Brothers, the batteries will not be announced until the players go to the post.

Esick returns with his fighting Tigers only five games behind the faltering Seals. The Bengals in their three weeks of northern invasion played thunder with the Sitashas, Beavers and Seals. Grabbing a double-header from San Francisco last Sunday afternoon was a life saver for Vernon; a saver that now makes the Coast League race a most question.

While Vernon is feeding fat on the stricken Ducks, the Seals should have their bats full in stand-

BANGTAILS IN FEATURE RACE

(BY A. P. NIGHT WIRE.) SARATOGA SPRINGS (N. Y.) Aug. 22.—A special match race which will bring together Kai Bang, Whisk-away, Bunting and Pillory, has been arranged by Richard T. Wilson, president of the Saratoga Association for the Improvement of the Breed of Horses. The race, which is to be called the "Saratoga Special Three-Year Old Championship" will be run as an added feature to next Saturday's program.

GARDEN SPOT FOR RACING

Mayor of Lexington, Ky., Eulogizes California's Facilities for Raising Blooded Stock

BY ED O'MALLEY

"Lord a mercy—why you folks don't have horse racing in this wonderful climate is beyond my comprehension," declared Thomas C. Bradley, Mayor of Lexington, Ky., to Dick Ferris yesterday afternoon at the Hotel Alexandria. Mr. Bradley is a guest of Ferris while sojourning in and around Los Angeles.

The Kentuckian, besides being the big official of the blue-grass city, is also manager of the Lexington race track where a ten days' fall meeting will begin September 14. The visitor is perfectly enraptured with California climate and scenery, but his enthusiasm dwells mostly on the many garden spots he has seen throughout the State, especially adapted for the conducting of horse racing. Among many things Mr. Thomas has to say about blue-blooded thoroughbreds, the raising of them in California seemed to solicit his thoughts the most.

SPORT SHRAPNEL
By HARRY A. WILLIAMS.

Vernon, returning from a most successful road trip, will open here with Portland this afternoon by firing both barrels at the Beavers in a double-header.

Ed R. Malar's machine, piloted by Daffin Bill Esick, would brook little opposition on the road. The Tigers copped fourteen games and lost six. They defeated Seattle five out of seven; trimmed Portland five times in six starts. True, they didn't meet the highest-class competition in these cities, but proved they were with the best in the circuit. Meeting the Seals in their own stronghold, they took the odd game of the series from the league leaders, terminating their trip sensationally by defeating San Francisco in seventeen innings with Dell going the full route against Shea. Esick apparently had his men going at top speed on the road.

Should Vernon be able to obtain Fred Mollwitz from Sacramento it would add materially to the gaiety of the race. Hope nobody will take offense when we remark that Mollwitz, considered in all departments, is the class of the league at first base. But it is believed that the Morings would have a hard time explaining satisfactorily to the Sacramento fans any sale or trade at this time calculated to further weaken an already weak team.

Portland, naturally, will be here looking for revenge, but may find it rather a scarce article. There will be considerable interest in Jimmy Middleton, fourth manager to succeed to the job since April. It's a dull trip here when the Beavers can't show us a new manager. They all succeed each other. None of them has had the job long enough to succeed beyond this. Portland has had almost enough managers to pitch a team into the penitentiary. Turner, Demaree and Middleton are pitchers; Kenworthy a second baseman.

Buzz Arlett has just one weakness. That is his neglect to warm up properly. He attends to this preliminary in a leisurely manner, playing in Los Angeles, despite contention of Hen Berry that he had and as a rule doesn't seem to get really started until the second inning.

"But for this he would be one of the best, if not the best, pitchers in the country," declared Del Howard.

Incidentally, Del paid a fine compliment to his brother Ivan, field manager of the Oaks.

"He is one of the best players ever sent up from the Coast League," quoth brother Del. "Look at his record. He was a dangerous hitter, a smart baserunner, a good inside player and generally stole from sixty to eighty bases."

Not only the truth, but interesting, because relatives as a rule are not given to heaping encomiums upon each other.

Ivan, known as the "for short," never was fully appreciated when in the class. Howard's mistake was in playing his best ball on the road.

Fans have marveled at Del Howard's exceedingly great patience with Don Brown.

There is the reason, and very personal one. Howard, like Brown, was a poor fielder. And, like Brown, a good hitter, only better. Del has a fellow-feeling for Don. He once suffered in the same way. Del once received \$400 a month for fielding for the Chicago Cubs about like Brown does for the Oaks. He admits it.

Indications are that Phil Douglas was considerably off his balance when he penned that letter. This is not the first time that he has been confined in a sanatorium under similar conditions, but his alcoholic brain magnified it into a great wrong on the part of McGraw. Mac has given Douglas every chance and been far more patient with him than any other manager would have been. Excessive drinker usually is ungrateful, looks for slight and distorts simple acts of restraint or discipline into campaign of persecution. Unquestionably Douglas was a demoralizing factor, undependable and sulky when in his cups, but with a passion for winning when sober. Dishonesty was not a normal trait with him. Belief still exists in some quarters that he was the dupe of smarter men, and the incident has been merely scratched on the surface. It may have been just a drunken break. I do not think that Douglas could be bought outright, but bootleg booze sufficiently administered would get the same results by making him an unwitting factor to his own elimination from baseball, thereby possibly changing completely the result of a league race. Plainly, McGraw, his ambition three pennants and three world championships in a row, was driven to desperation when he forced Douglas into a sanatorium.

Why we make Clicquot at Millis, Mass.

Under the ground there are springs of cold, clear water. Summer rains and winter snows are filtered and refiltered many times in nature's own way, so that when the water is drawn from the rocks it is purified.

And this is the water of which all Clicquot Club Ginger Ale is made. The ginger is the finest grown on the sunny island of Jamaica. Every other ingredient of Clicquot is pure and good. The blend is never varied, so that the taste of Clicquot is a constant delight.

Get Clicquot by the case for the home. If you prefer variety, you can get Clicquot Club Sarsaparilla, Birch Beer, and Root Beer.

WILL MAKE US WEEP

EDITH ROBERTS TO PLAY LEAD IN CLAY OPUS

By Grace Kingsley

It was just bound to happen sooner or later in film-land—the making of Edith M. Clay's "Thorns and Orange Blossoms" into a picture. Probably "Thorns and Orange Blossoms" has the distinction of having been hidden under more adolescent pillows and of having wrong more sentimental tears from adolescent eyes than any other book of the past generation.

Everybody has read "Thorns and Orange Blossoms" even if he won't admit it, and everybody, probably, will look forward with critical scorn, amused tolerance or eager anticipation, according to his nature, to its film adaption, when B. F. Schulberg projects it on the screen, as a Preferred Pictures production.

Of course, Edith M. Clay never dreamed of motion pictures, much less of having that work attain celluloid immortality. But if he—Edith M. Clay was a man, you know—could choose a cast for the picture, I am sure he would like the one which has been picked out.

The principal role is to be played by no less talented and popular an actress than Edith Roberts, who was engaged no longer ago than yesterday. Miss Roberts has lately been appearing in De Mille productions. Formerly she was a Universal star, and now, though but a scant twenty years old, she is one of the most popular of the film stars.

The remainder of the cast includes Kenneth Harlan, Arthur Hull, Estelle Taylor, Carl Stockdale and Evelyn Selbie. Louis Gasnier is directing.

Mr. Schulberg yesterday went to Del Monte, where he joined Tom Forman and his all-star company engaged in shooting exterior scenes for "Ching Ching Chinaman," the prize story of the selections of Edward J. O'Brien for 1931. The entire company will spend ten days at a picturesque location on the rugged shores of the bay. A fishing village, a harbor, a boat of the vintage of a generation ago are among the scenic effects provided by the Schulberg director for the phase of the picture.

Ray H. Look has moved his trusty typewriter over from the Robertson-Cole studio, and will have charge of the publicity of the Schulberg organization.

Harry Myers Returning

Harry Myers is returning to California, without having, after all, become the hero of "Ivanhoe." He is in New York at present, and Universal has something in view for him which promises him an equal opportunity.

Fast Work Note

Oh, but these western boys are fast workers!

These girls down at the Orpheum in Grand Central are busy to look out how they sing, "You, Little Boy," and point at some youth who catches their fancy. Helen Lynde did it on Monday night, and now it looks as though a romance were brewing. A certain brunette youth in the front row has been seriously begged for an introduction, and yesterday afternoon, proposed marriage last night, and there are various engagements in view, together with a trip on his papa's yacht some morning, and an introduction to a number of society people. Oh, and fresh flowers every morning, of course.

Harry Carey Vacations

If you notice a rolling gait on the hero in Harry Carey's next picture, "The One Man," on which Carey is shortly to begin work for Robertson-Cole, don't lay it to any bodger. It merely means that Harry has been spending his vacation sailing up and down the coast on his father's yacht.

Indeed he may have to tunnel under Hobart Bosworth in the leading role of the new picture, as she was in the last.

Wally MacDonald III

Wallace MacDonald, according to word received yesterday, is very ill with typhoid fever. His wife, known professionally as Doris May, picture star, and a nurse are residing for him at the MacDonald residence in Hollywood.

Miss May has been unable to fulfill contracts due to the fact that she is quarantined.

Cecil De Mille Vacations

Cecil De Mille is out on the bounding billows, singing "To Heave-Ho" and a bottle of ginger ale today. He sailed merrily from Los Angeles yesterday in his yacht, surrounded by members of his immediate family and some relatives from the picture industry.

He is expected to return to his work on a new production.

Times Winner in Films

Thanks to The Times, pretty Rheta Le Fort isn't waste her sweetness on the more or less well-known desert air. Miss Le Fort, who was a winner in the recent Times beauty contest, has been engaged by Marshall Neilan to play a small part in "The Stranger's Dance," which Neilan is making for Goldwyn.

After a week, Mr. Neilan decided the young lady has a great deal of talent.

Another addition to the cast of the picture is Virginia Ruggles, whom we used to know as Virginia Caldwell, but who has decided to come out in the open with her real name. In everyday, humdrum life, Virginia Ruggles is the wife of Wesley Ruggles, the director.

FIRST VOCAL SOLOIST

Georgia Harriet Stark, popular young coloratura soprano who has won considerable fame as "Yum Yum" in "The Mikado," Josephine in "Pinafore" and as Lola in "Cavallera Rusticana," has been selected by Carl Eskin to be the first vocal soloist with the California Theater orchestra for the week beginning Sunday.

This is the first time that the California Theater has a soloist with a vocal soloist in connection with its daily concert program.

Mr. Eskin and he was delighted to have her as part of his program.

AIR RESCUE THRILLER

Aeronautics provide thrills aplenty, even in ordinary use. In Mack Bennett's "Molly-O" the first national attraction, starring Mabel Normand, which is coming next week to Miller's Theater, the climax is reached when the villain is rescued by a hero in an airplane. Mabel Normand is surrounded by a cast that includes such popular screen folk as Jacqueline Logan, Eddie Gribbon, Jack Mulhall, Carl Stockdale and Eugene Bressner.

Can You Help Her Answer Question?

Phyllis Haver

Trying to decide whether she wants to be a tragedienne or a comedienne by using up ancient Greek masks made at the Goldwyn studios. Her fate has, however, been settled for her, as she is to appear as the star of comedy-drama for Bennett. She is now enhancing the sparkle on the local screen in "Home-Made Movies" at the Mission Theater.

GRAUMAN'S TO SHOW EUROPEAN FEATURE

"The Loves of Pharaoh" is a story that thrills and amazes even the most blasé of theatergoers, and Los Angeles will see this picture next week at the usual Grauman prices, despite the fact that all other cities are charging \$2 per seat.

At a special preview of "The Loves of Pharaoh" Douglas Fairbanks and Charles Chaplin are said to have exclaimed simultaneously, "The greatest picture ever made." The story is of Pharaoh Amneno, who answered Samlak, king of the Ethiopians, by refusing Makeda, his daughter, in marriage, and making Makeda's runaway slave, Theonice, Queen of Egypt.

Theonice consented to become queen at the price of the life of her lover, Samlak, but unwillingly. Unable to win her, Amneno goes to defeat before Samlak's forces. The discouraged Egyptians are routed to victory by Samlak, who, after Pharaoh's death, is made monarch in his stead.

More than 100,000 men and women are said to have been employed in the desert scenes of this production. Few pictures heretofore produced can compare with "The Loves of Pharaoh" in point of number used in its enormous ensemble. It is a tremendous photoplay which, once seen, can never be forgotten.

COSTLY MODESTY

Lloyd Boie Against Himself, and Love

This thing is getting serious. If it goes any farther it will have to be investigated. Out at the studio they take Harold Lloyd's money as from him, "very tight," and open his mouth. It's getting so now that Lloyd can't make a comment on "Grandma's Boy," which is playing at the Third and Broadway, without some one saying, "I'll bet you this" or "I'll bet you that."

Voila Vaia will be Carey's leading woman in the new picture, as she was in the last.

Wally MacDonald III

Wallace MacDonald, according to word received yesterday, is very ill with typhoid fever. His wife, known professionally as Doris May, picture star, and a nurse are residing for him at the MacDonald residence in Hollywood.

Miss May has been unable to fulfill contracts due to the fact that she is quarantined.

PLAYDOM

PHYLLIS A STAR

THE SUNSHINE HAYTER TO HEAD OWN COMPANY

By Edwin Schallert

Phyllis Haver has arrived. You know her, of course, as the heroine of many a comedy, bathing and otherwise, and perhaps you have heard that lately she has been cast for a serious role in Maurice Tourneur's production of "The Christian." But the latest news, and most striking, is that the child Haver has been elected for stardom. She is to do her first scintillating in a comedy-drama, "Molly-O," at the Bennett Studios.

The announcement from the studios states that she has served her apprenticeship and qualified for her diploma. She is regarded as having both the beauty and talent necessary for a starship. Her first story, it is understood, will be similar in a general way to the Mabel Normand special. The theme will probably be of the well-known Cinderella variety.

The first picture is to be directed by F. Richard Jones, who made "The Crossroads of New York," "Molly-O," "Maudie" and other comparatively recent specials for Bennett, as well as the far-famed "Mickey," in which Miss Normand starred some seasons ago. The Haver feature will be released as one of the new series of Bennett offerings through Associated First National.

Meanwhile there are many signs of a coming boom at the Bennett studios. The predictions are that short-reel comedy units will be the number of three or four will be busy, as the First National schedule calls for twenty-six of these a year. Specials will be made by Miss Normand, Miss Haver and Ben Turpin. Some of the Turpin pictures will be short-reels. Miss Haver and Mildred June are making a two-reel series. Who will head the other companies is not yet ascertained, although Louise Fazenda would seem to be a possibility. Miss Fazenda recently made a comedy with baby John Henry and the dog Teddy, called "Bow Wow" that is expected to be a telling success.

One old friend, Charlie Murray, has also returned to the city, and it is not beyond conjecture that he, too, will return to the studio. The present busy outline of plans is pursued, as it undoubtedly will be.

"New World" Symphony

The American impulse, that same democratic impulse which is behind the move for the establishment of outdoor music in California and elsewhere, was depicted last night at the Hollywood Bowl. The Symphony No. 5 by Dvorak, popularly known as "From the New World," was played under the direction of Alfred Hart before an audience that equaled, if it did not exceed, any that has previously attended the concert. While it was written by a native of Bohemia, this symphony freely expresses the emotions which were aroused in him by a visit to the United States.

There are moments in the work which are alive with natural color. It has not great depth or great breadth as a composition, but it is rich in picturesque detail. The phrasing of the work is not brilliant, but its appeal is chiefly in the serene passages. To the second movement in particular, which has been presented at these concerts, Mr. Hart gave a rare and beautiful charm of sweetness. Elsewhere he endowed his interpretation with a fresh individual and, at times, electric quality. While I do not reckon the rendition as one of the most striking achievements of the orchestra since they have been playing at the bowl, it was, nevertheless, one of his high standards.

Claire Forbes Crane was the soloist, and played in the vivid and dramatic fashion that is hers in the first movement of Tchaikovsky's Concerto in B flat minor for piano. The applause betokened the delight which her performance evoked. Her style of interpretation becomes especially eloquent in the instance of an emotional composer as the Russian tonal poet.

The final number on this, the second symphonic program given by Mr. Hart, was the serene poem, "Les recluses" by Liszt, to the rendition of which the conductor, as usual, gave artistic distinction.

Nita Plays Crook Role

Nita Naldi is adding the role of a female crook to her repertoire, while playing in "Anna Ascends" at the Paramount Long Island studios. This is her first appearance before the camera, at that place, since she played Fanny in "Experience." Since that time, of course, she has interpreted Dona Sol in "Blood and Sand," now showing at Grauman's Rialto, which resulted in a five-year contract for her with Famous Players-Lasky.

Holt in Atlantic City

A flash tells us that Jack Holt is filming the boardwalk at Atlantic City. We hope this will mean a lot of wooden acting in his new picture "Making a Man."

Keaton's Going East

They are saying around that Natalie Talmadge Keaton may soon be going back to the screen. She is to leave shortly for New York, accompanied by Buster Keaton, Jr., and his renowned comedian papa, and during that time may sign up for a screen appearance. Incidentally the Keatons will meet Constance and Norma Talmadge and Joseph Schenck, who are returning from Europe, October 22.

Begin Return Trip Today

The company making, "Passions of the Sea" for Goldwyn's will set sail for home today, according to a cable dispatch just received by Mrs. House Peters, from her husband, who plays the title role. The picture unit has been in and around Tahiti for the past six or eight weeks. The travelers are expected back in Los Angeles about September 1.

Emotional Thriller

The "Queen of the Moulins Rouge" adapted from the Paul M. Potter drama, will show at the Mission Theater next week. The principal roles are played by Martha Mansfield, Joseph Striker, Henry Harmon, Fred T. Jones, Jane Thomas, Tom Blake and Marie Carillo.

The picture was produced in the East, with Ray C. Smallwood as director.

POINCARÉ SETS
FORTH POLICYGermany Must Pay Damages,
Premier DeclaresFrance to Act Alone Unless
Allies Co-operateTeuton Claim of Insolvency
False, He Asserts

(BY CABLE AND ASSOCIATED PRESS.)
PARIS, Aug. 22.—France is firmly determined to make Germany pay for the devastation she caused in the war, and rather than depart from this fixed intention, she will act alone, Premier Poincaré declared at the opening meeting of the general council of the department of the interior today, in a speech generally regarded as the complete official declaration of French reparations policy.

The necessity and justice of the payment of reparations by Germany were emphasized by the French Premier, who placed the blame for the present situation on the attitude of the commission of reparations and the failure of Great Britain to understand the desperate plight of her allies and the need for the payment of the indemnity.

M. Poincaré recited figures in an effort to prove that Germany was responsible for her own collapse and had deliberately failed to live up to the demands of the reparations commission. He vigorously denied that France sought to enslave Germany in revenge for the devastation of war.

SEES HOPE
Premier Poincaré held out the hope of German and French co-operation, with both nations working together some day, if Germany would change her tactics and do her best to repair in peace the damage she caused in war. France was eager to co-operate with her allies, he said, but would take independent action rather than be deprived of her just compensation.

The Premier spoke at length of the divergent courses now being taken by France and England. He declared that it was only natural that nations, like people, should think first of their own interests. France could not continue to bear the burden of all the Allied commitments, he asserted. He went on to record as advocating an Allied conference for the settlement of war debts, which would be attended by all the nations interested "without exception." The latter phrase was taken to mean that he referred to the United States.

In discussing the depreciation of the German mark and the attitude of Germany toward the reparations question, M. Poincaré declared it was a well-known fact that Germany had not met the greatly reduced schedule of payments adopted May 5, 1921, that she had not lived up to the deliveries of coal and wood demanded by the reparations commission and that since the armistice Germany had not balanced her budget.

It was further proved, he added, that Germany had deliberately depreciated the value of her mark through the reckless printing of paper marks. In the face of all this she had appropriated large sums for public improvements and issued generous subsidies for the benefit of her nationals.

GIVES LIFE TO TESTIMONY
"All these series of proofs give the category lie to the German position," he declared.

Ravaged France, he declared, during the three years of 1919 to 1921 had paid abroad through her adverse commercial balance and otherwise, \$4,500,000,000, France while Germany paid \$2,000,000,000. "This simple comparison," he continued, "is proof that the full of the mark is certainly not due to the causes described by Germany, but is due, according to all the evidence, to the feverish printing of paper marks and the exportation of capital."

Attacking the position of the reparations commission, M. Poincaré asserted that the commission in all reason and logic should already have said to Germany on several occasions: "You have failed in your elementary obligation, and I will propose to the Allies that they collectively impose upon you the necessary penalties."

"But," he added, "the instruction given by certain governments have been exceptionally lenient. The letter of the treaty perhaps, has been respected, but the spirit has been constantly ignored."

Alluding to the Allied debt question, M. Poincaré said that the Germans must not be placed in the same category as the debts between the Allies as the latter were for the common cause.

PATERNITY
OF CHILD
ATTACKEDActress Wife of Cinema
Director Files Affidavit in
New York Court

(CLARENCE DEWITT.)

NEW YORK, Aug. 22.—The paternity of little Lawrence Webber, Jr., has been attacked in the bitter fight being waged in the Supreme Court here over the child's custody by his mother, Edith Hallor, screen and stage star, wife of John D. Dillien, motion-picture director, against her former husband, L. Lawrence Webber, theatrical manager, it was disclosed in an affidavit filed today in court.

Both Webber and his former wife are seeking custody of the child, now in the care of Supreme Court Justice Johnston. Webber accused the child's mother of kidnapping him. Miss Hallor, denying Webber's accusations, through her attorney, today said: "He promised that if I did not contest a divorce action he would see that I had complete and sole custody of the child. A stipulation was entered into in Los Angeles giving each of us cus-

today of the child six months a year.

"On July 20, 1922, I demanded the care of the child. Mr. Webber refused to abide by the terms and it became necessary for me in accordance with our agreement, to take the child away from him. Why Webber has suddenly become the loving father, after repudiating the child, is a mystery to me."

PROHIBITION AGENT
INVOLVED IN INQUIRY

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Aug. 22.—Investigation of a purported illegal sale of liquor from the cellar of William Crowley, here, in which Roy Wilmet, a prohibition agent, is involved, was undertaken by the Federal grand jury today. It was announced by United States District Attorney John T. Williams. A young son of Crowley is alleged to have made the sale in Crowley's absence.

Juarez Wedding
of Jews Breaks
Long Precedent

(BY A. P. DAY WIRE.)

EL PASO (Tex.) Aug. 22.—The marriage of Mordcael Labavitz and Miss Rebecca Chorno, solemnized yesterday in Juarez by Rabbi Charles Blumenthal, of El Paso, was said by local rabbis to be the first orthodox Jewish wedding ceremony performed in that country since 1652, the time of the Spanish Inquisition.

The bride and bridegroom are both natives of Poland and intend entering the United States after they have lived long enough in Mexico to comply with American laws.

SYRIA OPPOSES
FRENCH MANDATESHOPS CLOSE AS NATION
TAKES UP CRY FOR
INDEPENDENCE

(BY A. P. FOREIGN CORRESPONDENCE.)

DAMASCUS, July 30.—Syria is again disturbed as it was at the time of the visit here of Charles R. Crane of Chicago. This time the agitation is against the French mandate which was recently approved by the Council of the League of Nations, at its conference in London. The people of Damascus, Beirut, Haifa, Alexandretta, Hama and Hama have closed their places of business and are now spending their idle hours parading the streets and crying: "Independence or death."

The Iron Hand, an organiza-

tion similar to the Sinn Féin in Ireland, made its debut in Damascus yesterday when two of its members openly fired at and seriously wounded the commandant of police here. Bombs were also thrown at several houses occupied by French officials, causing much material damage, but no casualties.

KILLS HER BABIES;
COMMITTS SUICIDE

(BY A. P. DAY WIRE.)

BELLEVILLE (O.) Aug. 22.—Mrs. Emmett Green, 40 years old, killed herself in her home two miles east of here today after she had killed her two children—Coral, 2 years old, and Stanley, 5 years old—by slashing their throats with a razor.

The bodies of the three were found on the kitchen floor when following a request yesterday to Sheriff Traeger from the northern authorities.

The girls, Rosa Kolboff, aged 16, and her sister, Loris, aged 15, are said to have left Visalia with Lee-

CALIFORNIA ADMIRAL
TO AID BRAZIL'S NAVY

(BY A. P. DAY WIRE.)

SAN FRANCISCO, Aug. 22.—Rear Admiral Vogdes, a Californian, has been selected to accept a commission from Brazil to reorganize the navy of that country, it was announced yesterday at Twelfth naval district headquarters.

YOUTHFUL QUARTET
SOUGHT BY OFFICERS

Two bobbed-haired girls and two youths who are said to have eloped from Visalia are being sought here following a request yesterday to Sheriff Traeger from the northern authorities.

The girls, Rosa Kolboff, aged 16, and her sister, Loris, aged 15, are said to have left Visalia with Lee-

ter Anderson and Milton Benbo. Deputy sheriffs were instructed to be on the lookout for the quartet.

STATE BOND ISSUES
INCREASE IN VALUE

(BY A. P. NIGHT WIRE.)

SACRAMENTO, Aug. 22.—An increase of more than 100 per cent is shown in the aggregate par value of bonds authorized by the State Corporation Department in 1921, as compared to 1917, according to a report issued today by the department.

The total by years of bonds authorized to be sold, as given by Commissioner of Corporations Edwin M. Daugherty, follows: 1917, \$15,975,400; 1918, \$22,174,300; 1919, \$36,078,750; 1920, \$33,576,625; 1921, \$46,896,300.

FURRIERS' ANNOUNCEMENT

PALISADES
BEACH

Picture a group of attractive homes close to the water's edge, at the foot of the beautiful Santa Monica Palisades.

An exclusive colony of seashore residences, complete with all city conveniences—within easy reach of Los Angeles—yet right where, in quiet seclusion, you can enjoy all the delights of the oceanside.

YOU SHOULD ACT IMMEDIATELY

What has hitherto been found only at a considerable distance—Santa Barbara, Balboa and La Jolla—is now made available within a 40-minute motor drive from Los Angeles.

In a graceful curve of the shore line, commanding a full view of glorious western sunsets, with the majestic Palisades for a background, a limited number of building sites have been carefully laid out. Cement sidewalks now flank them, and they are reached by a paved boulevard and by the Pacific Electric. Gas, electricity, water and sewer are all immediately available.

Down to the water's edge runs a gently sloping beach. Your children may play all day on the sands. Canyons are reached by a few minutes' drive. The picturesque beach resorts of Venice and Ocean Park are only a mile

or so away. Boating, bathing and water sports of all kinds are right at hand, while the principal golf courses in the vicinity of Los Angeles are within easy driving distance.

It is part of the beautiful city of Santa Monica, only a few minutes' ride from the heart of the business section. Yet it is well away from the amusement piers and public beaches—private, quiet, select in every particular.

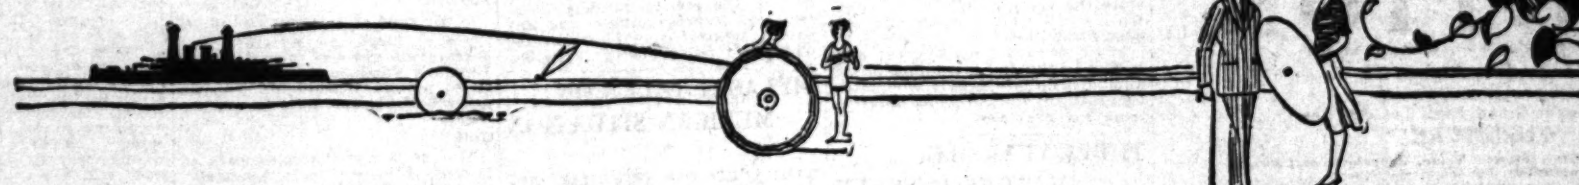

Los Angeles has long felt the need of just such a colony as Palisades Beach—yet there are only 20 lots to meet the demand!

Just opened, Palisades Beach TODAY offers you the opportunity of an early selection. You should lose no time in making your choice.

Prices are surprisingly reasonable and terms convenient

BUSINESS NEWS

Local Jobber Says East is Optimistic; Arizona Conditions Good; Oil Stocks Strong

That eastern merchants and industrial leaders are conservatively optimistic over the present business outlook was the encouraging news that M. G. Cooper, president of the local jobbing firm of Cooper, Coates & Casey, brought back yesterday on his return from an extensive visit to the eastern commercial centers.

Mr. Cooper is a national figure in the dry-goods trade, having been president of the National Wholesale Dry Goods Association for many years, and was able during his trip to gather the personal opinions of many of the most important business men of the country. He finds them practically unanimous in the belief that conditions in all lines will continue to improve.

The only notable adverse influence in the situation is the apprehension and hesitancy caused by the rail and coal strikes and the attendant possibility of a fuel shortage this winter. However, this factor is more the effect of Mr. Cooper's opinion, by the bumper crops which are reported from the agricultural districts. Big crops mean big business and the demand from a prosperous farming population will easily take up the slack caused by industrial labor troubles.

Now that business is feeling the pulse of reviving inquiry from consumers, manufacturers and jobbers have looked about them and found an actual shortage of supply in certain lines. Manufacturers who shut down their plants or who reduced their inventories to a minimum during the depression period now find that they cannot take care of the returning demand.

This condition particularly prevails in textiles, apparel and kindred lines, where the production of finer materials has been held up for many months by the strikes in the New England mills. Retail and wholesale buyers are entering the market in great numbers and are meeting with considerable difficulty in having all of their requirements filled.

So far this situation has not resulted in any stupor for merchandise, according to Mr. Cooper, but it is sufficient to maintain prices at a very firm level. The chief factor of influence in dry-goods prices this year will be the cotton crop report for September 1, and the tariff on wool. The cotton report will have the effect of more or less stabilizing the cotton market for the rest of the season. Cotton will probably sell around 22 cents a pound. Most of the cotton goods now on order should be manufactured out of cotton that was bought at the old prices of 18 cents or less. The advance in raw materials is bound to bring an advance in dry goods.

Commenting on the present status of the jobbing business in Los Angeles, Mr. Cooper said that conditions were better. Last week was almost a record week because so many buyers, who customarily order from the East, turned to the local wholesalers because of the strike scare and the possibility of delayed deliveries. The commercial industrial exposition is expected to have the effect of greatly stimulating the business of local distributors.

Arizona Conditions
Little change in general business conditions in Arizona during the month of July was noted in reports to the Arizona Industrial Congress from all parts of the State. The general situation is vastly better than a year ago, but it probably will be fall before any further improvement appears.

In many localities business was less brisk in July than in June, due mainly to the summer vacation. Bank clearings were below the preceding month, another result of seasonal quietness. The agricultural and live-stock situations showed little change, but further gains were made in the mining industry, an important factor in the business life of the State.

Those who have been looking forward to general improvement in the fall and winter see no reason to alter that expectation, although it is generally recognized that the railroad strike will retard all lines of business if it continues. Unemployment in the State is

negligible. While a few communities report a surplus of labor, other localities are experiencing a shortage, more especially of skilled men. Continued increases in employment are expected.

BRITISH BONDS POSITION

Blair Co., Inc., call attention to the present position of the United Kingdom of Great Britain and Ireland three-year 5% per cent convertible gold notes, due November 1, 1932. These bonds are convertible at any time prior to November 1, 1932, at the option of the holder, at 100 and interest into National War 5 per cent bonds, fourth series, at 100 and interest, sterling exchange being computed for the purpose of conversion at a fixed rate of \$4.30 to the pound. These National War Bonds are payable in sterling maturity, Feb. 1, 1930, at 105 and interest.

In the original plan of the offering of the United Kingdom \$4 1/2% is stated that notices to be given prior to Sept. 1, 1932, of any conversions which are to be made on or after that date. Should this provision be adhered to, the price of the United Kingdom \$4 1/2% will probably drop to somewhere around the call price of the National War Bonds. At present the United Kingdom \$4 1/2% is selling at approximately 110 1/4. For holders of these notes who do not wish to convert this price should prove to be attractive enough to warrant their taking advantage of any exchange proposition which may give them the advantage of present prices.

IN THE BOND MARKET

New financing has been extremely dull for the past two weeks, the smallest amount of new bonds for the year being offered. Investment bankers agree that the market is in splendid condition to absorb new offerings, but the strike that cloud the industrial situation as well as foreign financial uncertainty, have promoted caution in bringing out new loans. In addition several potential underwriters are expecting an even heavier market in the fall, and are holding off their new issues until then.

Sales of municipals in this district are slowing up. The next large piece of public financing will not take place until September 11, when \$2,000,000 Los Angeles school and high school district 4 1/2% due from 1933 to 1936, will be sold.

OIL STOCKS STRONG

An interesting stock market phenomenon of the past week has been the strength of the stocks of the large oil companies in spite of the poor earnings outlook for petroleum producers. Strength of the stocks of the larger producing companies have been going up at the same time. However, the securities of the smaller producers have remained stationary around their lowest figures.

This buying of oils has naturally caused some surprise in the trade where the general situation in the industry is not considered to warrant any expectation of an early recovery. The United States production is now running around 1,800,000 barrels a day, as against an average output of approximately 1,400,000 barrels daily for the first six months of 1932. California's production is around 875,000 barrels daily with between 40,000 and 70,000 barrels shut in. As August shipments have been at the rate of approximately 1,100,000 barrels a day, it does appear that the price situation will swing toward the producer again in the immediate future.

STOCK LISTINGS

Figures recently compiled show that at the beginning of the year there were 175 issues of stock listed on the New York Stock Exchange, compared with 509 in 1914. The increase of 334 is made up of 155 issues with par value and 101 without par value, the latter all common stock. Increased par value alone amounts to \$1,498,547, 400 more than the par value of issues listed in 1914, when there were no "no par" stocks. Increase in number of industrials exceeds the net increase of both industrial and rail; industrial issues listed show an increase of 274 and the rails a decrease of 2. Par value of rails, however, aggregated \$72,000,000 more at the first of this year than in 1914.

FOREIGN EXCHANGE

An idea of the volume of foreign exchange business emanating from Los Angeles merchants and traders is contained in the report of George A. Pfaff, foreign exchange manager for A. W. Coote, who states that his office handled over \$3,000,000 in foreign drafts in the three months ended July 24. While this total carries some speculative buying, the bulk of it was for commercial transactions for banks in this territory. The Coote firm has recently inaugurated a private wire service with the Bank for the express purpose of handling foreign exchange business.

NATIONAL BANK BRANCHES

The Merchants National Bank, it is understood, is about to follow the footsteps of the Commercial National and establish a string of national bank branches within the city limits of Los Angeles. Although no official announcement has been issued, authentic sources of information state that the first agency will be at the corner of Seventh Street and Benton Way and that it will be opened in the latter part of September. The action of the Merchants National Bank is a recent ruling by Comptroller of the Currency Crissinger which permits national banks to establish branches within the city in which their charter authorizes them to operate.

BOND HOUSE MOVES

The First Securities Company has moved its offices from the second to the sixth floor of the Los Angeles Trust and Savings Bank, where practically the entire floor has been given over to the use of the company.

What's Behind Active Stocks

WALL STREET NEWS

(EXCLUSIVE DISPATCH)
NEW YORK, Aug. 22.—A busy trading day on the New York stock market for the week ended today. The common stock market showed a general upward movement, with the Dow Jones industrial average closing at 110.14, up from 109.14 the day before. The market was characterized by a steady flow of business, with many new issues being placed.

The 10% in Public Service Corporation of New York, which was placed on July 1, was accompanied by preliminary reports of the statement of earnings for the month of July, which are expected to be issued later. This statement, according to reports, will show earnings equal to more than 25 per cent.

With the general opinion in financial circles that the railway strike will have to wait until the fall, the market for the stocks of the railroads was quiet. The market for the stocks of the oil companies, however, was very active, with many new issues being placed.

Wide interest was attached to the July report of the United Pacific system today as the first of the large class 1 bonds to be placed. Whether the shipment of the bonds today was a sign of the market's confidence in the system, or whether it was a sign of the market's confidence in the United Pacific, was not clear.

With the general opinion in financial circles that the railway strike will have to wait until the fall, the market for the stocks of the railroads was quiet. The market for the stocks of the oil companies, however, was very active, with many new issues being placed.

STANDARD OILS

NEW YORK, Aug. 22.—Following are the closing prices on the New York stock market for the week ended today. Standard Oil stocks quotations furnished by A. H. Crary & Co., 615 South Spring Street.

A ROOM TOWN

BOON TOWN NOW

IN PALESTINE

Perhaps the best indication of the final success of Zionist efforts in Palestine is the remarkable growth of the municipality of Tel-Aviv. Founded about twelve years ago by a group of sixty families who moved north to Jaffa, Tel-Aviv today has a population of 15,000. It is a city of 30 acres. It can well be compared to one of our booming Western towns. It is a thoroughly modern city with a sewer system, a water system, fine streets and even a remarkably fine bathing establishment. From the city center, a dirt road (only a little over a mile) one passes from the twentieth century into the second century.

The town is now one of the towns in our southwest which seemed to grow from year to year as if by a magic. The discovery of the oil supported the feverish activity of constant building. But it was reared by the sea in the wonderful climate of our great city. The sea is the "capital of the movies." And so Tel-Aviv is endeavoring to perform a similar miracle on the shores of the Mediterranean. It has not yet discovered its "key" industry, but its inhabitants build and build. On its famous Rothschild Boulevard you can find Jews from all the four corners of the American continent. The "American Restaurant," established by a Jew from New York, meets visitors from Europe and America, Canada and the British Isles, and, of course, in even larger numbers from all the countries of the Middle East. The Tel-Aviv might explain the "melting pot" where English-speaking Jews, Russian Jews, German Jews and Rumanian Jews are melting into a Hebrew-speaking Jew in the land of Israel.—Bernard A. Rosenblatt in New York Times.

CABLE LINKS CUBAN TOURISTS WITH HOME

The summer tourists is something of a paradox. He goes on a journey for the express purpose of obtaining a change from the home scenes which, dear though they are, have become somewhat monotonous; he travels to "get away from business." But he derives an immense amount of satisfaction from the fact that he can, if he exports with a telegraphic communication with the very things he has deliberately left behind.

The Cuban tourist in the United States is no exception. And for the hundreds of wealthy residents in America and other countries, Cuba is annually make their exodus to cooler climates during the summer months. The Havana Telephone calls is a welcome means of direct, personal communication with home. But a company, one of the large passenger steamship companies show that upwards of 14,000 people sail from New York to Havana, the Capital Atlantic or Gulf ports every summer, many of these being Cuban vacationists.

Large banking houses with Cuban connections, sugar and tobacco importers and American firms have a large market in Cuba account, of course, for the greater part of the long distance calls to and from Havana. But a considerable number of calls are of a purely social nature and are put through by young Cubans who have left the island to study in colleges and universities by vacationists and by Cuban business men temporarily in the United States.

The cable is also used extensively by the colony of Cubans in London. The great manufacturing in Key West, by the way, is a means of keeping in touch with friends and relatives.—(Telephone Press).

DISQUALIFIED

A teacher asked, as reported by the London "Globe" paper, "What is the best thing that he was alive now, think of the home rule bill?" and the boy answered, "The fact that I was alive now. He could not be to be interpreted in politics." (Outlook).

Ask the Clerk—He Knows

Last winter an association of college professors held a convention at one of the Chateaux in the French Alps. During the meetings the discussion was warm and they finally decided to settle the disputed point by having a drawing of straws. Two of them went down to the desk to ask the clerk if a copy of the much-needed book was

"May I inquire if you have an encyclopaedia?" said one of the professors, looking benevolently at his glasses.

"No, I am sorry, we do not. But—solitiously—what is it you want to know?"—(Saturday Evening Post).

A Quick Think

A Scotch parson, remarkable for the simple force of his language, was enlarging upon on the text, "Esau's birthright." "Ye shall all have perith."

"Ye, my brethren," urged the parson, "shall be contented than seeing a bluebottle fly on the desk, 'ye shall perith just as surely as I flatten this poor

Before the blow descended the fly escaped, whereupon the minister further improved the occasion by exclaiming:

"There's a chance for ye yet, my friends."

Pleasant Information

The Professor—"I'm afraid, my dear young lady, that you find statistics very dry things."

Dear Young Lady—"Not always."

Professor—"Why not?"

There were four hundred million people in the world and I am prettier of the lot.—(Boston Transcript).

Looked the Part

He—She made me feel like

She—"saw you and I could tell how you felt by the way

A dark, vertical, textured strip, possibly a book binding or a piece of wood, running along the right edge of the page. The texture is grainy and uneven, with some lighter and darker areas. It appears to be a close-up of a physical object.

TARIFF IS SENT TO CONFERENCE

Third Redrafting of Bill to Begin Soon

Cunning Campaign Charged to Democrats

Foreign Valuation Plan is Stumbling Block

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 22.—By a vote of 198 to 68 the House sent the tariff bill to conference today for its third redrafting. The six Republican conferees, three from the House and three from the Senate, probably will have a preliminary meeting tomorrow and get down to work Thursday. The size of the task ahead of the conference committee was revealed today with the re-printing of the bill as it was approved last Saturday by the Senate. The re-print showed 2438 changes from the original House text—a new high record—and the conference will have to adjust differences on each of these.

In the hour's discussion which preceded the House vote, Democratic leaders predicted that the bill would not be reported out of conference until after the November elections. They argued that the conference would have to adjust differences on each of these.

Republican leaders made no prediction. Representative Mondell of Wyoming, the majority leader, expressed the hope that it would be out "at no distant date."

CUNNING CAMPAIGN CHARGES

Representative Campbell of Kansas charged that the Democratic campaign managers had arranged a "very cunning" campaign to be inaugurated the day after the measure became a law.

"The tariff arrangements made," he asserted, "the stage is set, the prices are fixed, the advances are to be made upon every article enumerated in this bill, either with specific or ad valorem duties and the price is to be advanced on the orders of the importers down through to the retailer."

Chairman Fordney of the ways and means committee, who heads the House conferees, promised that he would go into the conference insisting upon the original House bill. He said the Senate change from American to foreign valuation of duties was the most important amendment to be considered but added that there were others.

SENATE RATES HIGHER

"Both in the matter of specific and ad valorem duties," he stated, "the Senate rates are generally higher than those fixed by the House, in some instances much higher, and certain specific instances from 100 per cent to 500 per cent higher."

Representative Gardner, Texas, ranking Democrat on the ways and means committee, predicted that the House would have to accept the Senate's foreign valuation plan if it wanted to have any tariff bill.

Immediate action on American valuation was urged by Representative Garrett, Tennessee, the Democratic leader. He said the conference could make little progress on the bill until the House had set this issue.

Representative Pou, Democrat, North Carolina, declared the House was sending to conference a bill which would be "a victory" for the tariff protectionists.

He said the bill would be presented to an American Congress and one that had "enthusiastic support of no body."

In the vote to send the measure to conference, three Democrats voted with the solid Republican majority. They were J. C. Calhoun, Campbell, of Pennsylvania, and Lamar of Louisiana.

Bench Warrant Out for Pal of Slain Gangster

Failure of R. C. Beauchamp, who was arrested with Ed Burton, one of the bandits slain by Sheriff Tragger's deputies while attempting to loot a safe, to appear in Justice Follette's court yesterday resulted in his bail of \$2500 being declared forfeited. It was understood that after Burton and two other alleged bandits were killed that Burton left the country. A bench warrant was issued for Beauchamp and Burton were accused of burglarizing the hardware store of E. J. Scott, 21 West Colorado street, Pasadena, and with grand larceny of three shotguns, two rifles, three revolvers and a pistol. It is believed the weapons were returned to their owner yesterday.

HELD FOR TRIAL

Slayers of Redley Banker Face Manslaughter Charge

[BY A. P. NIGHT WIRE.]

FRESNO, Aug. 21.—J. W. Friday and W. A. Beger, local firemen, were held for trial in the Superior court by Justice J. E. Schofield of Farley today on a manslaughter charge growing out of the shooting and killing of Frank Wells, Redley banker, by members of a posse on July 31.

Wells, commanded to halt, speeded up his car in the belief that he was being held up by bandits. He was shot and instantly killed, a young son saving the machine from turning over by grasping the steering wheel.

The accused firemen were members of the posse stationed at Redley Bridge and were intercepting and searching all automobiles, seeking the slayer of Police Sergeant James Hardenbrook during the county-wide search.

The men are at liberty on \$5000 bail.

Ever Ready

Automatic Water Heater

What Water Heater are you planning for your new home?

The Ever Ready is especially constructed to meet local requirements and to fit into the small space usually allotted for the water heater—only uses gas when you use the water—can easily be regulated to any temperature desired.

Saves Gas First Cost Space Fully Guaranteed

Sold on easy payments—as low as \$10 per month.

Ever Ready Heater Co.

HOT OLIVE OIL FOR HAIR BEAUTY

"Don't overlook olive oil as a means to healthier, more attractive hair. Many women, famous for beautiful tresses, and men who realize the need for careful hair culture, regularly use Dr. Pratt's California Olive Oil in this way:

Bring a small quantity of Dr. Pratt's California Olive Oil to the boiling point. When sufficiently cool, apply it to the scalp with a small brush, preferably a stiff tooth brush. This frees all dandruff scale from the scalp and feeds the oil pockets at the roots of the hair. After a generous application of the oil, shampoo the hair in the usual way with a good grade solid or liquid soap with plenty of soft water.

After the hair is rinsed and dried, sufficient of Dr. Pratt's Olive Oil remains to form a dressing for the hair and a protection against the scourge of dandruff. Follow this method once a week and the dulled of hair takes on a new beauty.

Get Dr. Pratt's California Olive Oil from any Sun Drug Store and other leading druggists, or send \$1.00 to Dr. Pratt's Olive Oil Company, 615 E. Third street, Los Angeles, and we will send you a large size bottle by parcel post.—[Advertisement.]

Teeth as Low as \$5; Best Set \$7

Most sets, more better, no matter how much you pay, including your choice of best metal material (most complete) 10 years

CONVENTION DELEGATES IN SESSION

Gov. Stephens Welcomes One Hundred Per Cent Clubs Here

With 300 delegates from various centers of the United States and Canada in attendance, the first session of the convention of the International Hundred Per Cent Clubs was held at the Clark yesterday morning, with addresses of welcome by Gov. Stephens and Cliff Rabe, president of the Los Angeles Hundred Per Cent Club.

The response was made by Ted Daken, president of the International organization, who pointed to the fact that the Hundred Per Cent Clubs of the United States and Canada have done much to cement friendship between West Coast cities, from Los Angeles to Victoria, leading the various municipalities to a greater appreciation of their common problems.

The delegates and their ladies enjoyed a luncheon at the South-west Museum, served by the wives of members of the local club, Mrs. Charles H. Coffey, being chairman of the luncheon committee.

During the afternoon session at the museum, M. J. Crehan, president of the Vancouver Hundred Per Cent Club, made an address, emphasizing the distinctive service to the general public rendered by the Hundred Per Cent clubs in the exchange and general dissemination of business information.

The rest of the sessions this week will be held at the Clark. The social feature of this evening will be the attendance of the delegates at the Pilgrimage Play as guests of the local club, Mrs. Charles H. Coffey, being chairman of the luncheon committee.

BREAK BOOZE BOTTLE

Passion Police Scoop Liquor From Gutter for Evidence

By a "Times" Staff Correspondent (EXCLUSIVE DISPATCH.) PASADENA, Aug. 22.—When R. A. Whaley and his brother, Jack, aged 21 and 23, were arrested today for alleged transportation of liquor in violation of a local ordinance, they did not have time to break a bottle on the pavement to destroy the evidence.

The cops, who were Patrolmen Goetz and Edwards, not only scooped up enough liquor from the gutter to make out a case, but they placed an additional charge of breaking glass on the public highway against the two youths. The brothers, who said they lived at a bridge construction camp near Rusch Gardens, were locked up in default of bail.

THREE DIE IN AUTO CRASHES

Street Car Strikes Machine at Intersection

Father and Son Receive Fatal Injuries

Speeder Knocks Woman Down at Crossing

Three persons are dead as the result of two automobile accidents which occurred last night. The dead are William Johnson, 75 years old, of 847 West Fifty-first Place, and his son, Roy W. Johnson, 47 years old, of the same address, who were killed in a collision with a Hollywood Pacific Electric car at Occidental and Sunset boulevards and Mrs. P. F. Harwood, residing at 4511 Willow street, Lennox, killed at the intersection of Willow and Hawthorne streets, Lennox.

The accident in which the elder Johnson and his son were killed occurred when the younger man, who was driving, attempted to turn south on Occidental and was struck by an inbound car in charge of Conductor Carlson and Motorman Owens, according to police reports. Detective Harry Traipor was detailed to make an exhaustive investigation.

Death was instantaneous in the case of the elder Johnson but his son died several hours later at the Receiving Hospital. His skull was fractured, physicians assert.

The Johnson family are from Spokane, Wash., and have been here but a short time. The younger man is married and was employed as a stenographer for the Spokane Monumental Company.

Mrs. Harwood was killed, according to police reports, when she attempted to cross at the intersection of Willow and Hawthorne streets, Lennox.

J. E. Abrams, 1538 West Twenty-first street, was arrested and placed in the County Jail last night by City Marshal Reynolds of Inglewood, who charges that Abrams' machine was traveling at a rate of forty miles per hour when it struck Mrs. Harwood, and dragged her a distance of seventy feet before it stopped.

The dead woman's body was removed to the undertaking parlors of Deaver & Matson, Inglewood.

JUMPS THROUGH PANE

Youth in Eagerness to See Mother Cuts Himself

When 13-year-old William Watkins, inmate of the Maud Booth Home, 501 South Boyle avenue, saw his mother coming to visit him yesterday, "visitors' day," he apparently lost sight of everything else.

In his haste to reach her, he plunged through a plate-glass window, and then, excited and confused, rushed back through it again.

He was treated at the Receiving Hospital for several bad cuts and bruises. His mother is Mrs. Frances Cleckner, 1028 South Hope street.

INDIANA JURIST HERE

Atty-Gen. U. S. Lash of Indiana, arrived here yesterday for a visit of several days during which he will confer with local attorneys and officials regarding legislative and municipal service corporations. He is accompanied by his wife and son and is staying at the Lankershim Hotel.

PELICAN SLURS REPORTER

Famous Long Beach Seabird Denies Demise as He Gulps Down Morning Repast of Fish

By a "Times" Staff Correspondent (EXCLUSIVE DISPATCH.) LONG BEACH, Aug. 22.—The Times has lost an ardent admirer and a Times reporter is in "awful Dutch" down here in this town of sea waves, reform waves and the flappers. Pelican Mike, canny old bird of the local seabirds, is terribly incensed because The Times said today that he was dead.

At breakfast this morning he entered a full denial of the report and minced no words in telling the reporter what he thinks of news hounds who would foolishly mistake a common pelican, one of those proletarians, so to speak, for a bird of Mike's standing.

Spanish War Veterans at Knights of Columbus Hall

REVOLUTION LEADER ON VISIT HERE

Mexican Rebel Chieftain in City Three Weeks Ago, Says Paper

Gen. Juan Carrasco, who supposedly has continued his revolt in Sinaloa, was in Los Angeles three weeks ago, according to La Prensa of Los Angeles.

This report is somewhat startling, even as revolutionary politics go. Sinaloa is the west coast Mexican State, and Carrasco's revolt has been considered one of the most serious in Mexico.

According to the local Spanish-language daily he has "arranged matters" with the government, and even, while here, conferred with Gen. Francisco R. Serrano, Secretary of War in the Obregon cabinet, who was in Los Angeles on private business.

When the newspapers of Culiacan were printing articles about the escapades of Carrasco in the mountains around that town, the general was spending a quiet day looking at the marine gardens at Catalina Island, according to La Prensa.

It is said he was accompanied by Gen. Ramon, an old associate, and from here went to Mexico City.

Carrasco's revolt has been reported as divided into two main groups of his men rampaging around in the mountains. His movement succeeded in taking no towns, and was combated energetically by Gen. Flores, the military governor.

Carrasco is a man of the "ranchero" type, uneducated and skilled only in the guerrilla manner of warfare. But his political power, like that of Villa's and Obregon's, is great, and in the Carrasco revolution he was the dominant figure in Sinaloa.

Umpire's Wife Charges Abuse, Seeks Divorce

"Dutch" Rall, former umpire of the Coast League and now with the Southern California Baseball Association, was yesterday sued for divorce by Mrs. Camille A. Rall, who charges that her husband came home while intoxicated and forced her to leave the house so that his friends could sleep in her bed.

Rall, known officially as Otto John Rall, is charged specifically with cruelty.

The complaint states that Rall called his wife many names. He abused her, the complaint states, and once, at a party, while she was dancing with another man, he humiliated her by making suggestions to the other man.

The final act, the complaint states, came in February, this year, when Rall deserted his wife. She asks for \$100 a month.

INQUEST OVER GIRL

Cause of Accident in Which Tot Was Killed to be Determined

An inquest over the body of 6-year-old Elaine Anderson, accidentally struck down and killed Monday night by an automobile driven by Mr. Tsunokori, will be held by Coroner Nance Friday at 9 a.m., at the W. A. Brown undertaking parlors.

The child was killed while crossing the street in front of her home, 2432 Buckingham Road, dying before her father, Charles Anderson, could rush her to medical attention.

Funeral service will be conducted, Friday afternoon, interment taking place in Rosedale Cemetery.

TREASURE EXPLORER DIVORCED

Wedding Bells Jangle Harshly for Member of Cocos Island Search

Joseph Hartley, a mining engineer, once a member of the expedition that sailed for Cocos Island to hunt for buried treasure, learned in the corridors of the Courthouse yesterday that his wife May Boucher Hartley, had won a divorce, the custody of their two young children and \$75 a month alimony. Mr. Hartley did not contest the suit.

He was charged with extreme cruelty. Mrs. Hartley testified in Judge Deasy's court to a number of incidents which she said caused her suffering. She was represented by Attorney Everett K. Brown.

Bernard Potter looked after the interests of Mr. Hartley.

The Cocos Island treasure-hunt made history years ago. Many of the nobility in England financed the expedition and employed Mr. Hartley as an engineer to locate the spot to dig for mythical buried Spanish gold. He lived in Costa Rica and being well paid, spent money lavishly.

The Hartleys kept up an expensive ménage. They entertained lavishly. Then, it seemed, came reverses, as the domestic wharfedid not run so smoothly. The sweet bells jangled out of tune. Then came the separation and Mrs. Hartley's action for divorce.

ATTORNEYS TO CONFER WITH SHENK

Three Are Selected by Bar Association Head as Investigators

The names of the three local attorneys appointed by President Frank James of the County Bar Association to investigate the charges brought against Deputy Dist. Atty. McCartney and Asst. G. McCartney, his wife, were made public yesterday. They are Herbert J. Goudge, Richard J. Culver and Troy Pace.

The three were appointed after Superior Judge Shenk had requested the Bar Association to investigate the charges that McCartney and his wife talked with jurors while the case of Mrs. Madalynne C. Obenchain, charged with the slaying of J. Belton Kennedy, was on trial.

According to affidavits filed by Jud R. Rush and William B. Jack was about the same size as McCartney and his wife were guilty of unseemly conduct.

The committees will in all probability meet with Judge Shenk this morning to receive the affidavits and discuss the course of action to pursue.

MATADOR PANTS RUINED

Ocean Park Youth Gives Poor Imitation of Bullfighter When Trousers Brought Comment

By a "Times" Staff Correspondent (EXCLUSIVE DISPATCH.) VENICE, Aug. 22.—L. Davis of Ocean Park Heights bought himself a pair of trousers. They were not ordinary trousers, but honest-to-goodness Folies of 1922-Valentino-cake-eater trousers. They were corduroy, high-waisted, tight along the thigh and knee and belled at the bottom. In lieu of a cuff they were laced in true Spanish matador style.

Davis donned them and strutted proudly out upon Windward avenue pier. Near the dance hall he encountered Jack Crawford. Jack was about the same size as Davis. His trousers were straight and there were no laces on the sides. His trousers were of a vintage somewhere between 1911 and 1921.

Mr. Crawford took one look at Mr. Davis' trousers. He obeyed that impulse.

"Oh, dear," he called in soothing tones.

Mr. Davis resented the remark and showed fight. Mr. Crawford accommodated him and the battle of the pants was on.

PUBLIC INVITED TO VIEW PRIZE

Beautiful Bungalow, to be Awarded Lucky Winner, Nears Completion

Candidates in The Times \$70,000 prize campaign, their friends, and the public in general, are invited to visit and inspect the beautiful \$8000 prize bungalow now practically completed in West Hollywood Tract on Sunday, August 27. This will be known as "Inspection Day."

The tract is reached by taking the red line cars marked "Santa Monica via Hollywood" or "South Hollywood-Santa Monica Boulevard" at Hill street station.

Get off at Melrose station. By automobile, drive west on Santa Monica Boulevard to West Knox Drive, then to the left for two blocks.

REPOSES IN JAIL

Davis began to explain that they were the very latest in male sartorial make-up.

The father interrupted. "Take him back and lock him up," the father told the desk sergeant. "I'm through."

"Don't come to me for any more bail, he told his son as he placed the money in his pocket and left the station.

The Folies of 1922-Valentino-cake-eater trousers are now reposing, neatly folded, on a bunk in the city prison. Davis remains in jail, his trousers and his liberty.

BRIBERY HINT IN TRUCK DEAL

Dealer Says Company Was Asked to Give Money

"Slush Fund" Was to Obtain Support of Officials

Three Makes of Cars Were to Get Contracts

The plan of the City Council to buy 187 motor trucks for the engineering department and selling for an approximate expenditure of public money amounting to \$500,000, reached the high-explosive state yesterday when John A. Stoner, vice-president of the Mack-International Motor Truck Corporation, walked into the press room at the City Hall and in the presence of the representatives of five Los Angeles newspapers there declared that efforts had been made last Wednesday night to solicit money from his company in exchange for the putting through of a scheme to divide the motor-truck contract between three motor-truck companies, two to receive the major portion of the contract and a few trucks to be bought from a third company to obtain the necessary support of two Councilmen to the "split contract" plan. Mr. Stoner said:

"I am perfectly willing to go before the grand jury or District Attorney Woolwine, if either desires my testimony, to tell the facts that I know in connection with this truck deal. I believe that the grand jury should investigate the entire truck-purchase proposition.

TALK OF "SLUSH FUND" "For several weeks there has been much talk at the City Hall of the existence of a 'slush fund' to land this contract. It was even said that the Mack truck company had a 'slush fund' of \$75,000 to land the contract. I want to deny this emphatically. Not one cent has the Mack company to use in obtaining the necessary votes for this contract nor was one cent used in obtaining the City Engineer's report recommending that Mack trucks be purchased. The Mack company does not do business in that way.

"Yet last Wednesday, Mr. A. T. Smith of the Mack company was approached by a lobbyist for one of the nine truck companies bidding for the contract and this lobbyist said to Mr. Smith: 'The Council is deadlocked. The contract can be put through the Council if it is divided between two companies with a third company to secure the votes of two Councilmen who are favorable to that third company. Now, how much is it worth to the Mack company to get its share of the major part of the contract? It is understood that immediately upon the awarding of the shares of the contract to the Mack company the money is to be paid.'

"The man who talked to Mr. Smith was not Mr. Smith, but a man who was not named. The money which was to be raised was to be paid, or how it was to be paid or for what purpose, except that it was to secure the Mack company its share of the business.

"Mr. Smith replied that it would be necessary to consult the officers of the company and he reported to the newspaper representatives, confirmed it.

Neither Mr. Stoner nor Mr. Smith worked at this time gave the name of the man who had, they

BOAT WINS DEATH RACE

Record Run to Port and Action of Captain May Save Life of Burned Engineer

The ninety-five-mile race with death that the fishing schooner Seaco completed early yesterday in bringing to port her engineer, R. A. Myer, aged 57 years, who was horribly burned in an engine-room explosion, was aided by the quick thought of Capt. John Dorsey, surgeon-assent.

Myer, who lives at 128 West Tenth street, Long Beach, was attempting to start the engine at her utmost, made the ninety-five mile run to Los Angeles Harbor in six hours and forty minutes, a record from Santa Cruz, Babermen say. The Seaco, one of the largest fishing craft in the port, owned by the Seacoast Canning Company here, was badly damaged in the explosion.

The explosion occurred at 10 p.m., and the Seaco, pushed at her utmost, made the ninety-five mile run to Los Angeles Harbor in six hours and forty minutes, a record from Santa Cruz, Babermen say. The Seaco, one of the largest fishing craft in the port, owned by the Seacoast Canning Company here, was badly damaged in the explosion.

Myer's wife is on vacation in the mountains and he begged attendants at Hillside Hospital not to notify her of the accident unless he recovers from his burns.

NO MEN ATTACK GIRL

Pair Arrested at San Fernando Are Her Assailants; Statement Not Denied

Twenty miles in a high-powered automobile, in pursuit of the covers, made a brutal attack on her late yesterday, and, aged 15 years, of Glenshire, arrived in San Fernando, where City Marshal Thompson arrested two Los Angeles youths who were her assailants.

PELICAN SLURS REPORTER

Famous Long Beach Seabird Denies Demise as He Gulps Down Morning Repast of Fish

By a "Times" Staff Correspondent (EXCLUSIVE DISPATCH.) LONG BEACH, Aug. 22.—The Times has lost an ardent admirer and a Times reporter is in "awful Dutch" down here in this town of sea waves, reform waves and the flappers. Pelican Mike, canny old bird of the local seabirds, is terribly incensed because The Times said today that he was dead.

At breakfast this morning he entered a full denial of the report and minced no words in telling the reporter what he thinks of news hounds who would foolishly mistake a common pelican, one of those proletarians, so to speak, for a bird of Mike's standing.

"The I look like a dead one?" Mike demanded, as he peered angrily at his interviewer this morning. "I'm the liveliest dead bird you ever saw," he declared as he nibbled at a morsel of fish. "Of course, I don't pretend to know much about this newspaper reporting business, but it seems to me, young man, that in all fairness you should have taken the trouble to come down here and ask me about it before you go to writing that bill about me being dead and cremated. Ain't it so?" and Mike waxed ungrammatical in his anger as he tore to shreds with his great bill a copy of this morning's Times.

"And you can take this from me, young fellow," Mike was shouting his anger now.

"You can take this from me: When my time comes to die, no dead-burned old town dog catcher is going to get me and put me in the incinerator. I was born on the Pacific Ocean and that's where they'll lay me away when I bump off. Don't make no mistake about that."

The report of Mike's demise was circulated on the beach after City Humane Officer Stroh was called to put to death a huge pelican whose wing had been injured by a shot.

Shamefaced, the reporter went away from Mike's abode on the rocks to contemplate the mental make-up of folks who will deliberately mislead a trusting news hound.

ately misled a trusting news hound.

ately misled a trusting news hound.

HUMAN NATURE IS GONE AWRY

Precedent Upset in Case Before Police

Wounded Woman Brings Out Case of Two Men

Death of Her Child Cause of Seeking Death

That human nature is indefinable has been pretty well proved, for more and more men refuse to act according to any prescribed or established rule.

Just as psycho-analysts and psychologists pin him down and predict he will do this and so, he upsets precedent and does the reverse.

Consider the eternal triangle in the lives of J. P. Whitney, said to be a local attorney, M. P. Sutton, an automobile mechanic, and Mrs. Claudia Sutton, who, it is said, attempted suicide Monday evening.

SHOT IN ABDOMEN
Mrs. Sutton shot herself in the abdomen following the death of her 4-year-old daughter, Jacqueline, Monday morning, as the result of an operation.

Her asserted attempt at suicide occurred while J. P. Whitney, 2137 Glendale avenue, for whom she is asserted to have acted as housekeeper and who first declared her to be his wife, was in the room.

Police accepted Whitney's statement until M. P. Sutton, 211 East Sixty-second street, called at police headquarters yesterday and proclaimed himself the husband of the woman.

Detective Serg. Cline then brought Whitney and Sutton together and introduced them. They seated themselves at a table in the bureau and calmly discussed the woman, who then was in the receiving hospital in a critical condition and unable to see or speak to anyone.

Whitney told his story as follows, according to Cline:
"Mrs. Sutton was merely my housekeeper. I met her in St. Louis about four months ago. I came out here to see her. Mrs. Sutton and her daughter, Jacqueline, arrived about the 1st inst."

CHILD INJURED
While in St. Louis Jacqueline was hurt in a traffic accident. Whitney obtained from an insurance company Mrs. Sutton paid for the care of the child and for an operation performed here.

"When Mrs. Sutton learned of the death of her child she went into hysterics. When I went out to arrange for the burial, she must have taken my revolver and shot herself."

Sutton's story was even more brief:
"My wife left me six months ago and went to St. Louis to see her mother. She told me she did not want to have anything more to do with me."

"Jacqueline was not my child. Mrs. Sutton had married before in Phoenix, Ariz."

Whitney and Sutton listened to each other's story without any outward manifestation of animus.

When they were informed that the police had taken no action in the matter they left the detective bureau together.

Another correction has been made to the statement of Whitney, the heart and soul and mind of men.

Kennel Owner Sued by Woman for Dog Attack

Suits against the owners of purported vicious dogs were filed yesterday by Gertrude Hoskins and Maria Ryland, both plaintiffs asserting that they had been attacked and bitten. Each asked for \$5000 damages.

Gertrude Hoskins named A. C. Ashcroft and others as defendants in her action. They are said to have kennels at 1114 Wellington road and to be engaged in training police dogs. It is charged that they permitted two dogs to run at large, and that she was attacked while walking along Wellington road. The attack aggravated a nervous affliction, she says, causing her to suffer from shock.

Maria Ryland asserts she was bitten by a dog in Justin Miller, in whose home, at 5428 Seventh avenue, she was employed as a domestic. The complaint states that her nose is scarred and disfigured.

Easy Method of Getting Shoes Proves Costly

"Let's dance," "I have no shoes," "Oh, that's easy. I'll write a check for a pair."

This is the conversation admitted yesterday by E. P. Stockstill, who pleaded guilty to writing a \$10 check without sufficient funds. He appeared before Judge Houser and asked that he be sentenced at once.

According to Stockstill's story he is on parole from Potosi. He met a charming young woman and asked her to step out with him. She said that she had no shoes fit to dance in so Stockstill wrote a check and bought her a pair.

Stockstill was represented by Dep. Public Defender Scott.

Jews of City Will Welcome Famous Rabbi

Local persons of Jewish faith are preparing to welcome to Los Angeles next week, Jacob De Haas, secretary of the Palestine Development Council, and later Rabbi Abba H. Silver of Cleveland.

These two men are touring the country in the interests of a project known as the "Ruthenberg Plan" for the harnessing of the Jordan River to supply electric power and irrigation in Palestine, and for which nearly \$1,000,000 has been subscribed by Jews of the United States.

This project, it is estimated, will cost \$4,500,000 and will supply power for light, railways and other industrial purposes, and also serve to reclaim thousands of miles of hitherto arid territory.

A concession for this purpose was granted Pinchas Ruthenberg, hydraulic engineer of Palestine, by the British government last September.

Mother's Plea Wins Freedom for Her Son

Snatched from the doors of the State's prison through the revelation of an accident that occurred here, his mother wrote a local attorney, and the court revoked its former order. Probation papers are now being prepared.

Yesterday Mr. Scott learned of the affair and the court revoked its former order. Probation papers are now being prepared.

When Mrs. Scott learned of the affair and the court revoked its former order. Probation papers are now being prepared.

MOSHER TELLS STORY OF RAID

(Continued from First Page)

I had been shot. I could not lift my arm. The man was shooting at me. I put my other hand over and emptied the gun at him. He disappeared about the time I finished. Mosher testified.

Mr. Mosher's testimony is considered of great importance to the defense. Through it the defense attorneys will seek to convince the jury that Frank Woerner, the young officer who answered the call for help to the vicinity of the Eliduyen home on the night of the raid, encountered some of the raiders in the road, shot without provocation.

Mr. Mosher's testimony, and that of L. L. Bryson, who followed him on the stand, marked the completion of the main portion of the defense. The defense is expected to be closed some time today, indicating that the case may go to the jury at the end of this week or at the beginning of next week.

WOULD JUSTIFY RAID
Several of his fellow-defendants preceded Mr. Mosher. They were called to deny parts of the story told by State witnesses. Those who followed Mr. Mosher sought to convince the jury that the Eliduyens were selling liquor and that the raid was justified. The trend of the testimony introduced by the defense yesterday was to show that the leaders in the enterprise were officers of the law and to make it appear to the jury that the raid they engineered was a legal and orderly one.

The state through cross-examination by Dep. Atty. Gen. Keyes and Turney, succeeded in bringing out a number of significant points in the testimony which will try to show the jury that the raid was not what the defendants are trying to paint it. Mr. Keyes and Mr. Turney drew out the Ku Klux Klan phases of the testimony and obtained certain admissions from witnesses from which the jury can draw the inference that the Klan had not the law was behind the raid as originally planned.

Mr. Mosher's other testimony, in the scene of arrest, was that he rushed toward the figure in the road, wearing red, and discovered it was Clyde Vannatta, the boy who brought Woerner to the scene.

"My God Vannatta, what are you doing here," the witness said.

"Don't shoot, I did not do anything," was the answer Mr. Mosher said. The witness testified that he then told the boys to get back to town and said something to the effect that somebody would have to pay for it if anyone did.

DENIED WEARING MASK
Mosher denied he, his father or Leonard Rueger, the third victim of Woerner's gun, wore masks or that anyone other than himself brought Woerner to the scene.

After talking with Vannatta, the witness said, he again walked over to his father and tore his shirt away to see where he was wounded. His father did not have any mask, he said. While running toward the motorcycle, Mosher said, he threw his arm out and called out, "We are officers, throw your hands up."

On cross-examination Mr. Mosher admitted that he saw a number of men with handkerchiefs over their faces before the raid. He said he told them to take them off and that some of the "boys" showed him guns. Mrs. Eliduyen was very much excited when she rushed out of the house with nothing but a night gown on, he said.

He admitted he was not at all certain what was going on in the house. He said he was his father's chief deputy.

INVITED BY BAKER
L. L. Bryson, who followed Mosher, said he was asked by Nathan A. Baker, Kiege of the Klan, to go to the Ingwood and assist Constable Mosher in the raid. Baker said Mosher sent him, the witness testified. So he went out and asked J. P. Reed and J. R. Hamilton and W. A. Alexander to come along. Those who were not officers of some sort were "deputized" by him on the way over, Mr. Bryson said. "I took the precaution right there to swear them in under me," the witness told the jury.

After arrival at the parking

STAR .. WANTS .. LARGE .. DAMAGES

Asserts Earning Power Wrecked by Blast

Harriett Hammond

WHEN a pretty moving-picture woman draws \$1000 a week on a fifty-two weeks' contract, her face is her fortune. When that face is burned as the result of a blast of dynamite set off in her vicinity, and her nervous system is severely shocked, the fortune takes wings.

In no many words, Harriett Hammond, one of Mack Bennett's stars, tells the story of a mishap which she charges to certain corporations as gross recklessness and

whiskey and the brandy. Each man took a drink. Some one said something about gin.

BOUGHT WHISKY
"Oh, you Gin Rummy," said Mr. Bryson, according to the witness. Then the buying began.

They gave the man a marked \$10 bill and Mr. Baker went outside to give the signal for the men to come on.

The "Mexican" was placed under arrest. Some one else brought out Fidel Eliduyen. The two men were handcuffed. The witness said nothing about ropes. At one time, cost provided the plan of purchasing three each of four makes of trucks for the purpose of testing them to ascertain which truck was the most efficient. Mr. Stoner declined to accept the contract for three trucks at the price named in the bid which had been given on a basis of an order for 107 trucks, and because of this settlement, the Council, at its executive session yesterday, eliminated the ask company from consideration.

PREACHER, TOTING BIBLE, ARRESTED

Despite the fact that he had a Bible under his arm, the "Rev." A. J. Brown, colored preacher, was arrested last night near Fifth and Main streets by Detective Sergeant Finlison on a fictitious check charge. The "Rev." Brown has been arrested several times before on various charges, including Fidelity. The police say they have five checks written by the suspect that are no good.

MUSICAL PROGRAM GIVEN UPLIFTERS

A varied musical program was enjoyed Sunday by members of the Uplifters at their ranch. The clubhouse auditorium was filled to capacity by an audience who heard Miss Frieda Peycke, Prof. Gregor Cherniavsky and his pupil, Ben Harry Gronsky, The Lesplan Trio, composed of the Misses Margaret Wilson, Ruth Miller and Elsie Manion, and Mrs. Derrick Paine, accompanied by Mrs. H. J. Wellman.

ERUPTIONS ON SUN

Causes of Upheavals Not Clearly Understood by Scientists

The surface of the sun often is the scene of great and sudden upheavals of vast quantities of incandescent gases of many elements, these eruptions attaining heights of between 20,000 and 200,000 miles, according to the science service report of the United States Naval Observatory.

A record-breaking upheaval appeared Oct. 5, 1929, when a height of 516,000 miles was attained, considerably more than half the diameter of the sun. Part of the material in this upheaval returned to the sun, and part of it apparently was attracted to other planets. The velocity was over 200 miles a second.

Though eruptive prominences are frequently associated with sun spots, they are not essentially so, and this prominence was apparently an isolated phenomenon. The cause of these solar eruptions is not clearly understood, but it is probable that they are produced by a sudden release of subatomic energy beneath the surface of the sun.—(Exchange.)

Cost of America
From the diary of Columbus and from the other papers found available for his voyage, a German statistician has estimated at \$7250 the original cost of the discovery of America. Admiral Columbus himself drew a salary of \$250 according to the information gathered by Herr Feldhaus. The crew of the fleet were content, it appears, on stipends of \$25.25 a man. The German authority agrees that the Columbus enabling fund was obtained largely through the pawning of the rings and relics of Isabella of Spain.

OLD LAND CASE NOW ADJUSTED

Dispute of Years Settled With Woman Victor Over Forestry Service

A land title dispute of years' duration has finally been settled by a decision handed down yesterday by First Assistant Secretary of the Interior Finney, who ruled that the forest service is the loser in a contest against Mrs. Helen L. Givens, involving a valuable tract of seventy acres of land a few miles east of Los Angeles. The land is a portion of the area which was lost to the Southern Pacific Company through the decision of the Supreme Court of the United States in 1917.

In 1917, it is asserted, the railroad company sold this land to Daniel D. Brunk, who paid a portion of the balance to be paid in installments. Brunk thereafter assigned to M. D. Painter, who, in 1917, sold his rights to Mrs. Givens.

The final decree of the Circuit Court in 1919, in carrying out the Supreme Court mandate, provided that this seventy-eight acres of land was vested in the United States, subject to the right of Brunk to acquire title under the relief act of Congress. In 1919, Mrs. Givens applied for a patent to the land, but the forest service protested. The decision was placed in the San Gabriel forest reserve in 1923, later, in 1923, becoming a part of the Angeles forest reserve.

BRIBERY HINT IN TRUCK DEAL

(Continued from First Page)

said, attempted to obtain money from the Mack company to be used in swinging some of the truck contract to that concern, but said that they were to be given all details to the grand jury.

While Mr. Stoner and Mr. Smith were in the press room, C. E. Stoner, representative of the company handling the Commerce truck, which was one of the nine bidders on the contract, came into the room, and said:

"A lobbyist for one of the truck companies told me that the Mack people had a 'big barrel' to be spent in landing the contract."

Frank Purcell of the Garford company, when interviewed at his office in the Grant Building, said:

"I did say something last week in the press-room about a 'slush fund,' but I was not serious. I was only kidding."

Mr. Smith, who was not in the room, said he had no recollection of having said anything about a slush fund.

Mr. Humphreys, former member of the Board of Public Works who is active at the City Hall, yesterday had an interview with the Council's committee-room with Mr. Smith.

Mr. Humphreys, shaking his finger in Mr. Smith's face, said: "You or any other person cannot say that I made any proposal to arrange this truck deal."

Mr. Humphreys said later, "I did anything I can to help him. I did say I thought a compromise plan of splitting the contract was the best way out, but at no time did I talk to him or to any one else about a money arrangement to put this truck deal through."

NEW PLAN PROPOSED
The Council held another executive session yesterday to consider the truck proposition. Neither Councilman Mallard nor Councilman Conaway attended the meeting.

At this meeting it is understood that the compromise plan of splitting the contract between the Mack, Moreland, Garford and G.M.C. companies was discussed, and it is understood that a new plan was agreed upon, and is scheduled to come to a vote this afternoon.

This plan is as under the previous compromise, seventeen Garford two and one-half-ton trucks, sixteen Moreland trucks, and sixteen two and one-half-ton G.M.C. trucks are to be purchased, but instead of twelve five-ton trucks divided equally among the Garford, Moreland, G.M.C., and Mack companies, the Mack, under the new plan is eliminated.

The new plan is eliminated, and instead of twelve five-ton trucks, instead of twelve five-ton trucks will be bought. Vice-President Stoner of the Mack company yesterday offered to loan one five-ton Mack truck to the city for six months or longer to demonstrate its efficiency and low operating cost, provided the plan of purchasing three each of four makes of trucks was for the purpose of testing them to ascertain which truck was the most efficient. Mr. Stoner declined to accept the contract for three trucks at the price named in the bid which had been given on a basis of an order for 107 trucks, and because of this settlement, the Council, at its executive session yesterday, eliminated the ask company from consideration.

SEA THEIR ELEMENT

Panmotan Swimmers Have No Fear of Sharks and Coral

It was Sunday, and except for a party of Panmotan boys, visiting Tahiti after the diving season at Hikueru, we had the rest to ourselves. The boys had hauled up our canoes we stopped for a moment to watch them playing like sea lions in the surf, swimming unconcerned among boiling eddies and over coral where neither I nor any one of my companions would have ventured for an instant.

They carried slender, single pointed spears, and their superb bodies, naked save for breechcloths of scarlet cloth, gleamed ruddy brown in water blue as sapphire. At times they rode the breakers, a strange whistling sound, the breath from their lungs. The outer face of the coral is honey-combed with caves of varying sizes—crannies where small fish take refuge, and shadowy caverns where sharks loom and the giant octopus lurks watching for his prey. Whenever the sunlight penetrated the spearmen were aiming down into these chilling depths, and as I watched I realized that here was a sport in the truest and most manly sense of the word in which the white man might never hope to excel.

That of the Panmotan training required to swim unaided among ledges of sharp and poisonous coral; the wary eyes for danger; the lungs to remain full ten minutes under water; the head to withstand the pressure of a 100 feet; the supreme skill needed to follow and strike a fish. I have tried it in a safe three fathoms, and half an hour convinced me that only training from childhood could bring success.—(Charles B. Nardhoff in Harper's Magazine.)

FILM COMPANY SUE

A bill was filed in the United States District Court yesterday by Norma Dawn, who declares to be a citizen of the Argentine Republic, against the Robertson-Cole studios and others, asserting infringement of a patent granted to the complainant June 11, 1918, for an improved cinematograph picture composition. A restraining order is asked for by the plaintiff.

OLD LAND CASE NOW ADJUSTED

Dispute of Years Settled With Woman Victor Over Forestry Service

A land title dispute of years' duration has finally been settled by a decision handed down yesterday by First Assistant Secretary of the Interior Finney, who ruled that the forest service is the loser in a contest against Mrs. Helen L. Givens, involving a valuable tract of seventy acres of land a few miles east of Los Angeles. The land is a portion of the area which was lost to the Southern Pacific Company through the decision of the Supreme Court of the United States in 1917.

In 1917, it is asserted, the railroad company sold this land to Daniel D. Brunk, who paid a portion of the balance to be paid in installments. Brunk thereafter assigned to M. D. Painter, who, in 1917, sold his rights to Mrs. Givens.

The final decree of the Circuit Court in 1919, in carrying out the Supreme Court mandate, provided that this seventy-eight acres of land was vested in the United States, subject to the right of Brunk to acquire title under the relief act of Congress. In 1919, Mrs. Givens applied for a patent to the land, but the forest service protested. The decision was placed in the San Gabriel forest reserve in 1923, later, in 1923, becoming a part of the Angeles forest reserve.

A decision holding that the rights of Mrs. Givens were superior to those of the government, and that she was entitled to a patent, was handed down Oct. 18, 1921, by Assistant Commissioner George R. Wickham of the General Land Office. Mr. Wickham directed that a cash certificate be issued, which is the forerunner of a patent to the land, but the forest service protested. The decision, but it is understood, this decision handed down yesterday settles the matter.

This unusual case is further complicated by the assertion of several mining claims to the property, and the sundry parties who are permitted to occupy parts of the land on which they have made improvements, exceeding in value \$15,000. The decision directs that those who have made improvements be given an opportunity to remove them or make some amicable adjustment with Mrs. Givens.

BIG POWER for BIG AUTOMOBILES

You selected your car carefully for quality. Select your motor fuel the same way. It is unfair to feed a good car an inferior gasoline.

"Red Crown" answers completely the automotive engineer's demand for a motor fuel that will vaporize rapidly and uniformly in the carburetor and explode cleanly in the cylinders. All the heat units it contains are converted into power at the drive wheels.

"Red Crown" is uniform in quality—every gallon is the same, wherever and whenever you buy it. Fill at the Red Crown sign at service stations, at garages, or other dealers.

The law states that an operator shall not wilfully or maliciously interfere with any other radio communication. An operator convicted of such misdemeanor shall be punished by a fine not exceeding \$500, or imprisonment not to exceed one year, or both.

The London convention was held in 1912, and was a conference of representatives of the principal countries of the world. The convention made provisions for the regulation of radio communication and became effective in the United States July 9, 1913. The provisions are, in great part, still effective, although the art of radio has undergone some marvelous changes since their inception.

"Humanitarianism," declares the Wireless Age, was the cause of the Radio Corporation of America. Permitting the use of their vacuum tubes on competing ship lines. A new receiving tube, asserts the Age, has been designed by the Radio corporation especially for ship use, and will sell for \$10, or just twice as much as an ordinary tube.

The Southern California Radio Association held its semi-monthly meeting Monday night at Hamilton's. Going to a ball game, attendance very little of import was taken up. V. M. Ritz, vice-president of the association, presided. Next month, it is expected, will show a big increase in attendance over the last few meetings. The summer season always has been dull so far as Radio Club meetings were concerned. This is the first year in which meetings have been held regularly throughout the summer.

H. A. Whitman, 107 North Euclid avenue, Ontario, showed his appreciation of the KHJ program yesterday by calling up on the long distance telephone and expressing his approval of what KHJ was putting out on the air.

The Radio show and convention held at Seattle last June had forty exhibitors showing their goods. One of the interesting forms of receivers displayed was a "radio star" on which was mounted a tiny crystal detector set.

Morris Glass, a tailor doing business in the North Main Plaza district, has been the subject of much controversy. The part of the other tailors in that section on account of the large trade he has been enjoying for some time, the secret of which was not discovered until yesterday. Prohibition enforcement agents made a raid on his place, armed with a search warrant.

Shutty hidden in the closet where Morris keeps his "goose," fifteen gallons of moonshine whiskey were found. It was of such common quality that it was not worth the trouble of taking it away. A single drink was enough to make a man mount the rostrum at the Plaza and deliver an eloquent plea for the freedom of the people of Mexico.

It is asserted that Glass, the tailor, presented a bottle of hooch with every order for a suit of clothes. That was a sort of competition the other tailors could not match.

The clothes-making industry has resumed its normal swing in the Plaza district.

SEKES HURT BOY'S MOTHER
Mrs. Anna Williams, who left her son, Paul Smith, in the care of S. P. Williams of 353 Lola avenue, Pasadena, while she went in search of work, is being sought by Mr. Williams because of the serious injuries her boy suffered last evening. He was knocked from his bicycle and run over by an automobile on Colorado street, near Allan street, while he was on his way home from the high school plunge.

K-H-J The Times RADIOPHONE Operated by C. R. Kierulff Co.

DEATHS OF
TWO MEN
MYSTERIOUS
One Dies After Fight,
Other Found in Hotel
Bedroom

Detective Herman Cline and the homicide squad late yesterday began an investigation of the case of two men who died under mysterious circumstances. The body of one of the men was found on a bed in a room at a hotel at the intersection of First and Main streets, with a newspaper clutched in one hand and a small bottle containing what powder in the other. Detectives Bartley and Allen reported that they believed the man had taken poison. They said he had registered Monday night as H. Benson. Initials in his hat band were C. D. H. The body was removed to the Pierce and Lowe undertaking establishment, where evidence was found to indicate the man had taken poison.

The other case was that of Frank F. Dwyer, aged about 37 years, whose body was found by his sister-in-law Mrs. R. B. Dwyer in whose home at 1125 1/2 Soutwest street he had been rooming. Mrs. Dwyer told Detectives Shaffer and Worn who investigated that about 1:40 a. m. yesterday her brother-in-law came into the house with a black eye and bruises about the face. He told her, she said, that he had had a fight with a taxi driver on Wall street. A few minutes later he went to bed. About 10 a. m. Mrs. Dwyer visited his room and found him dead, she said. The body was removed to the Edwards, Gamash & Heath.

Detective Sergeant Schofield and Herman Cline late in the day arrested J. C. Wilkinson, aged 21 years, a taxi driver, and placed him in the City Jail on suspicion of manslaughter pending an autopsy to determine whether Dwyer died of natural causes or as a result of his injuries.

At a very satisfactory meeting of the Southern California Broadcasters' Association Monday night at the Los Angeles Athletic Club, it was mutually agreed by managers of the broadcast stations now using the evening hours between 8 and 9 to reduce their one-hour periods to three-quarter-hour periods thus allowing an additional period each evening for some innovation that has not had an opportunity to broadcast in the evening. These additional three-quarter-hour periods were given to live of the short-range stations, allowing all in-town stations at least one night period per week. The new schedule of station operations will be effective October 1.

REPAIR BREAK IN
HAWIEE AQUEDUCT
The Board of Public Service Commissioners announced yesterday that word had been received from Chief Engineer Mulholland of the Bureau of Water Works and Supply that the break in the Aqueduct near Hawiee reservoir had been temporarily repaired and that water is now running through the pipe line. Permanent repairs will be completed within the next few days. The break in the concrete water line, which supplies the city, was caused by the early Saturday night earthquake shocks where the break occurred, ninety miles from Los Angeles.

HEARINGS DELAYED
Because of the continued illness of U. S. Dist. Judge Trippett, there will be no hearing of the naturalization court on September 1. Hundreds of aliens are awaiting the examination that will admit them to American citizenship.

Judge Trippett should recover sufficiently, there will be examinations on September 8, 15, 22 and 29.

WILL PAVE HILL STREET
City Council yesterday granted the property owners' petition asking for the paving of Hill street, when it is opened, from West Washington street to Thirty-ninth street. Concrete pavement will be used.

Louise Marie Bitter
Dramatic Soprano
Miss Florence Brown
—Will whistle

Castle Grande
Wardrobe
Trunks
\$75.00
—It has been confidently
asserted that Castle
Grande surpasses all
Wardrobe Trunks in con-
venience, beauty and du-
rability.

—Bullock's has the good
fortune to offer 15 of these
wonderful Castle Grande Trunks
at \$75.00 each.

—They have the most beau-
tiful trunk covering ever de-
signed, durable in texture,
and distinctive in appearance.
Black patented steel binding;
brass hardware; Yale locks,
silk plush cushion top; com-
bination dust curtain and laun-
dry bag; drawer locking bar
device; 3 compartments in top
drawer; 10 or 13 hangers—
at \$75.00.

Gain Shown in
Income Taxes
for Last Year
United States Collector of In-
ternal Revenue Goodell yester-
day made public figures for total
collections on account of income
tax in his office, during the year
just closed. The amount was \$25-
\$21,215.47, which, he estimated,
means that every man, woman and
child in the Los Angeles district
paid to the government \$28.16
in income tax.

A total of 185,932 separate re-
turns were filed. Of this number
\$2,554 were for net incomes un-
der \$5000; more than \$5000 net
income, 16,987; corporations,
\$277; partnerships, 7843. The
number of separate returns filed
in 1922 was 47,926 greater than
the total for 1921.

Collector Goodell said: "It must
be borne in mind that the 1921
collections were under a personal
exemption of \$2000 for married
men and \$1000 for each dependent.
The 1922 collection faced a per-
sonal exemption of \$2500, with
\$400 for each dependent. This
meant a loss of \$20 tax on each
married man and of \$26 on each
married man with two dependents.
With 125,000 of the 171,012 of
personal returns from married men
with one dependent each, the en-
tailing a total decrease in tax
assessments of \$2,550,000. Yet,
in the face of this immense
shrinkage, the revenue of the Los
Angeles district virtually held its
own."

—25 high grade bags for
women, in either walrus or
cowhide; hand-sewed in
frames; built-in corners; leath-
er lined; 3 pockets; single or
double handles; 16 1/2 or 18
inch sizes—at \$19.95.
—Two very exceptional val-
ues from Bullock's Luggage
Store—Bullock's Hill Street
Building, South.

Unexpected Values With
'75 Decidedly "Different"
Beaded Bags, \$9.85
—Bags that came to Bullock's through a special bit of
good fortune in purchasing, and which would be really
quite moderately priced at much less than \$9.85!

Tortoise Shell Frames
—Yes, indeed, on many of them, while others have the draw-
strings. Designs in unusually rich colorings make them ex-
tremely attractive.
—No two alike; all have beaded handles and fringe. Lined
with good quality silk, and fitted with beveled mirrors.
—A popular bag at a very wonderful price—\$9.85—at Bul-
lock's—First Floor.

3000 Yards 30-Inch
Heavy Cretonne, 30c
—Can't you picture the heavy, satisfying texture of this
Cretonne—at 30c yard?
—A value surely hard to duplicate for cushions, overdrapes and
other drapery uses.
—At Bullock's—Sixth Floor—Drapery Section.

81x90 Sheets, \$1.15
—Reached sheets—of nice, soft-finished sheetings, that
launder well. 40 dozen at this lowered price of \$1.15:
90x108 Aeron Sheets, \$1.65
—It is so much easier to "tuck-in" these nice large sheets.
They are specially strong and durable, too. Reduced to \$1.65.

45-Inch Tubing, 40c Yard
—This is the kind of pillow tubing that will lend itself to beau-
tiful hemstitching or embroidery work. Reduced to 40c yard.
90-Inch Sheetting, 50c Yard
—300 yards of Bleached Sheetting, of good weight and soft
finish; will give excellent service at 50c yard.

80x90-Inch Crocheted
Spreads, \$2.50
—Woven and finished soft; good weight, excellent texture, and
no starch. Satisfactory spreads.

72x84 Crocheted Spreads,
\$2.25 each
—These are a good grade of spread, reduced to \$2.25.

66x80 Blankets, \$3.50 Pair
—These are wool finished cotton Blankets; a good assortment
of plaids and solid colors. Very greatly reduced.

20x27-In. Feather Pillows, \$1.75
—Filled with clean, odorless feathers covered with 8-oz. sat-
een art ticking; exceptional values at \$1.75. However, there
are only 30 of them.
—Bullock's Section of Bedding—Sixth Floor.

—Walter Camp's famous
"Daily Dozen" records
for the Victrola—the ex-
ercises of this well-known
Yale Coach set to spirited
appropriate music.
—A pleasant method for
overweight people, who desire
to reduce.
—Bullock's Sixth Floor Sec-
tion of Victrolas.

—Bullock's Section of Bedding—Sixth Floor.

—Bullock's Section of Bedding—Sixth Floor.

—Bullock's Section of Bedding—Sixth Floor.

—Bullock's Section of Bedding—Sixth Floor.

Wool Slip-over
Sweaters
\$2.95 and
\$3.95
—Charming styles, made
of mohair yarn in an inter-
esting fancy weaves; some
have V-necklines, and oth-
ers high round necklines.
Some are plain, while oth-
ers have contrasting col-
ored stripes of fiber. An
excellent color range.
—Bullock's Section of Swea-
ters—Fourth Floor.

—Bullock's Section of Swea-
ters—Fourth Floor.

—Bullock's Section of Swea-
ters—Fourth Floor.

—Bullock's Section of Swea-

ATTEMPT TOLD

Herbert Wilson, Accused Robber, Offered to Buy Testimony

of Los Angeles, purposed million-dollar mail robbery, is said to have promised to make over his "independently wealthy" life if he would testify against the gangster who was indicted yesterday in Judge J. Perry Wood's court.

REGISTER PROTESTS

Residents of South Pasadena Have Two Opportunities

(LOCAL CORRESPONDENCE) SOUTH PASADENA, Aug. 21.—The City Planners announce a public hearing for Friday evening at 8 o'clock. The commission is preparing to make recommendations to the City Council as to new business districts, the establishing of "set back" lines in certain sections and other matters under consideration.

A large attendance is expected at the hearing to listen to discussion on the subject of the "set-backs" the City Council is proposing to establish in the Fair Oaks business district, a move which has aroused much opposition.

The City Council will hold a "Public Hearing" of their own on Monday, August 22, and the commission meeting on Friday will undoubtedly give the protesting voters a good chance to get into practice.

WEALTH BRINGS DISCONTENT TO CHILDLESS HOME

Too much money was the cause of the unhappiness of Mrs. Ruth Barton Stabler, according to a suit for separate maintenance filed yesterday against William W. Stabler, head of a local oil company.

The couple was poor, the complaint states, both were happy, but with the coming of wealth discontent entered the home.

Mrs. Stabler states that her husband found fault with her continually and upbraided her because there were no children.

Finally, the complaint states, he left their home on Mt. Washington Drive with the announcement that he had found a woman whom he "believed to be more satisfactory."

DRIVERS GIVEN TERMS IN JAIL

No Alternative of Fines in
Two Instances

Double Accident Recalled in
One Hearing

Attempt to Outdo Policeman
Proves Costly

Four motorists were sent to jail yesterday by Police Judge Richardson for reckless driving. In two of the cases the alternative of a fine was eliminated.

Albert Sans, found guilty of reckless driving when he drove his automobile into another car in which Ralph Butler, his wife and 7-year-old boy, Neal, of 3434 East Fourth street, were riding at Boyle and Fourth street, was sentenced to thirty days in jail. It was from this accident that Neal and his mother were being taken to the Receiving Hospital in a police car in charge of Officers Heasel and Lindsay when the latter collided with another automobile at First and Broadway and turned over, adding other injuries to those already suffered by Mrs. Butler and her son, and painfully injuring the two officers. Mr. Butler, according to Detective Carr and Stelzeide, received possible internal injuries in the first accident.

Edgar C. Strouma, of 1849 West Jefferson street, who was driving the car which struck the police car, will appear on a reckless driving charge tomorrow.

CASE IS CLENCHED

After Police Officer Woodard testified that Fred Vonbreck had attempted to push him from the running board of the latter's car when the officer arrested him on West Eighth street Monday for driving recklessly, Vonbreck was found guilty and sentenced to ninety days in the City Jail.

Oscar Burstrom, arrested for driving recklessly on Washington Boulevard last Friday, was sentenced to pay a fine of \$100 or go to jail for 120 days. Failing to deposit the money, Burstrom was committed to jail. According to the testimony in this case Burstrom was seen to drive at an excessive rate of speed and in a manner endangering the lives of other motorists.

A similar sentence was given Alex Watson, of 813 San Fernando Road, Glendale, when he was found guilty of having recklessly driven his automobile into another car driven by Martin Sylvester of 1970 South 80th street at San Fernando Road and Avenue Twenty-three. Sylvester, according to the testimony of Officer Johnson, who arrested Watson, was painfully hurt as a result. Officer Johnson told the court that Watson was under the influence of liquor at the time.

Neglected, Says Wife; Picture Director Sued

Charging that her husband gave her but \$28 a year for clothes or anything else, Mrs. Bernice Gertrude Golden yesterday sued Louis (Jack) Golden, Jr., motion-picture director, for divorce.

In her complaint Mrs. Golden charged that she was forced to depend on her friends for clothing and necessities. She charges failure to provide and charges that while her husband made good money in his profession, he failed to give her any.

Mrs. Golden says that some time ago she was in an auto accident and that since that time she has been an invalid, unable to walk more than 150 yards at a time. Since her condition has been such, the complaint states, her husband has "cast her aside" and neglected her.

Mrs. Golden is represented by Attorney George L. Keefe.

Capt. Murray Retires From Police Force

The Board of Police Commissioners yesterday approved Capt. A. W. Murray's application for retirement after twenty-eight years' service in the police department. Mayor Croyer, Commissioners De la Monte and De Co, and City Prosecutor McConnell expressed their regret at Capt. Murray's departure from the force. "A splendid man and he has been a credit to the department," Commissioner De la Monte said. "The police department is losing a fine officer and man in Capt. Murray's retirement." The officer's application will be next approved by the Pension Board and the City Attorney and then the date of retirement, which will probably be about September 1, will be set.

Chief Oakes notified the police board yesterday that he had dismissed from the department Probationary Patrolman Richard H. Doyle, who was arrested for violation of the Volstead Act, after twenty-one gallons of "moonshine liquor" had been reported found in his room; and likewise the Chief dismissed Probationary Chauffeur Harold J. Conlin, who was, the Chief said, a reckless driver.

EMPLOYER BETRAYED HER, GIRL DECLARES

Declaring that Claude Hickmah, a San Pedro business man, after several months of pretended love for her, took advantage of her youth, inexperience and innocence and betrayed her, Vera May Norton demanded \$15,000 damages in a suit filed against him yesterday.

The complaint, prepared by Attorney W. R. Barnes, states that the plaintiff was employed in the office of the defendant's firm at San Pedro, and was thrown into daily contact with him. She says he frequently proposed marriage to her and frequently promised to marry her. He gained her confidence and affection and Aug. 15, 1931, she yielded. She is now in Seattle with her mother.

Four Days to Win \$500 in Gold and 65,000 Extra Votes

Showing a tremendous increase in voting as the close of the last \$30 club and gold offer in The Times' famous \$70,000 prize campaign approaches, the standings of candidates published below reveal the fact that many surprises predicted during the past week are now a reality.

New starters have forged into the lead in practically every district anxious to win the \$500 extra gold prize given during the 65,000 extra vote offer, and thereby enhance their chances of winning the \$16,500 Wilshire Crest home, the \$8000 bungalow in West Hollywood Tract or one of the twenty automobiles to be distributed after the campaign ends September 2.

The last \$30 club and extra gold offer closes promptly at 9 o'clock Saturday night, August 26. This liberal offer points out potential possibilities almost without limit. It is the WAY TO WIN!

Today is Last Chance to Enter

The nomination blank is herewith published for the last time. Those planning to enter must have their names in the campaign office, or in the mails, by 9 o'clock, tonight. Take advantage of this opportunity before it is too late!

(All votes counted on Burroughs Adding Machines)

Last Vote Count Sunday

The vote standing will appear again on Sunday, Friday and Saturday of this week. On Sunday, Friday and Saturday the last changes in votes until the end of the campaign. In other words, when the vote standing appear Sunday they will not be changed until the winners are announced and the total votes are given by the official judges after the close of the campaign. The only exception will be in case of correction of errors.

Candidates who desire to publish a portion of their votes in good position, must send in a sufficient number of votes at once, and in no case later than Friday noon for Sunday's publication. The standing as published Sunday will positively remain the same during the remainder of the campaign, as no further count will be made until the final one which decides the prize winners.

Every candidate must be entered in the proper district in order to share in the distribution of prizes, and if you know of a candidate who is entered in the wrong district, please advise the campaign department at once. Also one that YOUR correct name and address appears in the list so that any important mail sent you will be promptly delivered.

MOORE WOMEN
ASK SUPPORTLetter Sent to Republican
Voters in StateQualification of Candidate
Given EmphasisRally to be Conducted in
Trinity Hall

BY MYRA NYE

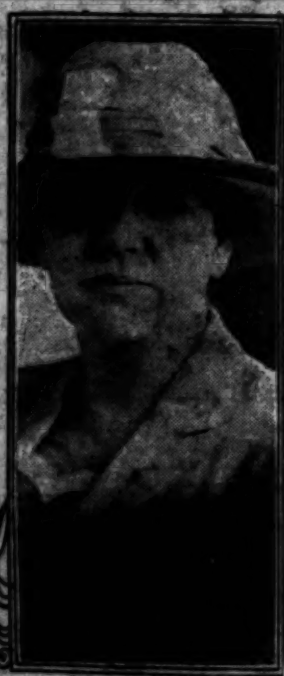

Republican women of California
have watched with in-
terest the primaries, next
Tuesday when a choice within the
party will be made for the nom-

Working for Moore
At left, Miss Belle McCord Roberts, who spoke last night in the Civic Auditorium, San Francisco, on the same platform with Mr. Moore. She will be the chief woman speaker at the Moore rally here Thursday night. At right, Mrs. Helen Mathewson Laughlin, president of the California Women's Moore-for-Senator League, who will preside at Moore's rally in Trinity Auditorium Thursday night.

ination of United States Senator. Impelled by the campaign issues which they regard as vital and national, they have united in an appeal to both men and women to join with them in naming Charles C. Moore to take the place of Hiram Johnson.

These women have stood for world peace, for a better understanding among nations, for an excellent economic and industrial condition maintained in the nation as well as the State. In virtual unanimity they express the belief that Mr. Moore will go far to bring these things about.

MESSAGE FOR WOMEN
Officers and prominent members of the California Women's Moore-for-Senator League yesterday sent

out a call of clarity, clearness to urge those who may become apathetic in the middle of the campaign season, to come from the beaches and mountains, to register their desire for Mr. Moore's presence in the Senate. The letter has been circulated for several days in order to acquaint the women of the State with the

"To the Republican women of California:
We, the undersigned women from all parts of the State, officers of the Women's Moore-for-Senator League of California, earnestly urge all alert and thinking women to recognize and grasp an untold opportunity, a successful engineer, an expert rancher and a sound business man has been persuaded to become a candidate for the United States Senate.

This man knows the needs of our vast State and his training and experience peculiarly fit him to represent California as it never has been represented before. His record shows him to be a deep thinker and a wise doer—a public-spirited citizen with a wide reputation for his achievements in the Senate his loyalty and sense of duty to his State, the nation, and the world compel him to share in the reconstruction problems growing out of the great World War. He would support the President in the reconstruction of the country, the leaders of the Republican party and be found standing firmly for the Constitution and for the best endorsement of all laws. Such a man is Charles C. Moore. Vote for him and send a Republican to Washington who will represent California with ability and support the Constitution and the administration.

In this contest the primary election is vital, and the only way to secure the nomination of Charles C. Moore for United States Sen-

Diet and Health
By Lulu Hunt Peters, M.D.
Author of "Diet and Health with Key to the Calories"

Pain and Discomfort Beneficial
The trip-hammer is not increased in size by exercise, while the arm of the blacksmith is. Is it because nobody believes that such a result can happen with the trip-hammer? No. It is because the trip-hammer is made of non-living tissue and the muscle of the blacksmith's arm is made of living tissue.

Take two seeds, kill one by heat or chemicals, plant both of them in the soil. One will take out itself nutriment from the soil, and it will develop into a thing of living beauty. The other will decay. Why the difference? It is because we thought this would happen. One grows and the other decays! No. It is because the one is living matter and the other is dead matter.

In the physiological laboratories, tissues from animals are kept alive for years, while the animals that furnish the tissues are dead and have been resolved into non-living elements. Is it because the physiologists do so? No. It is because the inherent life principle is still functioning in the tissues and it is not in the animals.

Our living body, the heart beats, the lungs expand and contract, the intestinal muscles work, the glands secrete and excrete, the brain registers impressions through the senses. Why? Because it is living tissue and it is inherent for them to live and to function. Life!

How much of the inherent principle of life and growth can we unconsciously or consciously control? Fortunately, very little. Good? Love? Nature? The Unknown? Whatever it is, let us accept these things.

(1.) Life and growth is inherent in us.
(2.) It is normal for the functions of life to go unconsciously, painlessly, under the right conditions.

How much of the conditions under which the inherent principle of life and growth function can we consciously or unconsciously control? Fortunately, and unfortunately, a large share.

Just as the seed, to grow, must have the proper environment so must the various tissues and organs

of the body. If there comes a time when through our thoughtlessness or ignorance, or both, the right environment is not furnished—there is not enough nourishment or too much, or not enough guidance or too much—then there is a protest from the tissues and organs.

First, perhaps, discomfort. Then pain, and then a non-performance of their duties. It is the plan of Nature to let us know that things are not as they should be, and the organs are striving to obey the law of normality, and to right themselves.

So, then, we must accept pain and discomfort as beneficial. We would not get away with them, not until we do away with the errors which cause them. These errors may be physical, errors of anatomy, or they may be mental errors. How much is physical an error cannot always be known.

Come—the French psychologist whose work I discussed yesterday—"Every illness has a mental cause." It is exclusively a mental one. Indeed, on every physical illness a mental one comes and attaches itself.

"If we give to the physical illness the coefficient 1, the mental illness has a coefficient of 2, 10, 20, 50, 100, and more. In many cases this can disappear instantaneously, and if its coefficient is a very high one, for instance, while that of the physical ailment is 1, only this latter is left, a good thing for you to try. You need not have a knotted string or a rusty screw, but count on your fingers twice across."

Through Conscious Auto-Suggestion.

(Copyright, 1932, George Matthew Adams.)

Mr. William L. Babington, President of the Los Angeles County Medical Association, who spoke last night in the Civic Auditorium, San Francisco, on the same platform with Mr. Moore. She will be the chief woman speaker at the Moore rally here Thursday night. At right, Mrs. Helen Mathewson Laughlin, president of the California Women's Moore-for-Senator League, who will preside at Moore's rally in Trinity Auditorium Thursday night.

This man knows the needs of our vast State and his training and experience peculiarly fit him to represent California as it never has been represented before. His record shows him to be a deep thinker and a wise doer—a public-spirited citizen with a wide reputation for his achievements in the Senate his loyalty and sense of duty to his State, the nation, and the world compel him to share in the reconstruction problems growing out of the great World War. He would support the President in the reconstruction of the country, the leaders of the Republican party and be found standing firmly for the Constitution and for the best endorsement of all laws. Such a man is Charles C. Moore. Vote for him and send a Republican to Washington who will represent California with ability and support the Constitution and the administration.

In this contest the primary election is vital, and the only way to secure the nomination of Charles C. Moore for United States Sen-

tor is to vote for him without fail on Tuesday, August 29.

At left, Miss Belle McCord Roberts, who spoke last night in the Civic Auditorium, San Francisco, on the same platform with Mr. Moore. She will be the chief woman speaker at the Moore rally here Thursday night. At right, Mrs. Helen Mathewson Laughlin, president of the California Women's Moore-for-Senator League, who will preside at Moore's rally in Trinity Auditorium Thursday night.

These women have stood for world peace, for a better understanding among nations, for an excellent economic and industrial condition maintained in the nation as well as the State. In virtual unanimity they express the belief that Mr. Moore will go far to bring these things about.

MESSAGE FOR WOMEN
Officers and prominent members of the California Women's Moore-for-Senator League yesterday sent

out a call of clarity, clearness to urge those who may become apathetic in the middle of the campaign season, to come from the beaches and mountains, to register their desire for Mr. Moore's presence in the Senate. The letter has been circulated for several days in order to acquaint the women of the State with the

"To the Republican women of California:
We, the undersigned women from all parts of the State, officers of the Women's Moore-for-Senator League of California, earnestly urge all alert and thinking women to recognize and grasp an untold opportunity, a successful engineer, an expert rancher and a sound business man has been persuaded to become a candidate for the United States Senate.

This man knows the needs of our vast State and his training and experience peculiarly fit him to represent California as it never has been represented before. His record shows him to be a deep thinker and a wise doer—a public-spirited citizen with a wide reputation for his achievements in the Senate his loyalty and sense of duty to his State, the nation, and the world compel him to share in the reconstruction problems growing out of the great World War. SOCIETY

BY VIRGINIA WOODS

Return from Montana

Mr. and Mrs. J. Ross Clark and their little grandson, J. Ross Clark, aged 11 years, have returned from a two months' trip to Montana, where they visited Mrs. Clark's sister, Mrs. Marcus Daly at her country home, "Riverdale," near Hamilton. They spent several weeks as guests of William A. Clark, Jr., at his summer lodge at Salmon Lake, Mont. Mrs. Daly will come to Los Angeles in October to visit Mrs. Clark and another sister, Mrs. Joseph Lewis. William A. Clark will return next month.

Judge and Mrs. Gray Here

Judge and Mrs. Wheaton Gray, who are making their home on their ranch at Visalia, are here for a visit of several weeks and are at the Clark Hotel. Before coming they visited their son-in-law and daughter, Mr. and Mrs. Chester W. Judson in San Francisco. Mrs. Frank Carlin is giving a luncheon today at the Los Angeles Country Club in honor of Mrs. Gray. Mrs. A. W. Judson entertained with a luncheon in her home on Monday, and Mrs. A. D. Johnson gave a bridge luncheon in her honor last week at the Los Angeles Country Club.

Return from Canada

After a tour of six weeks in the Canadian Rockies, Mr. and Mrs. William J. Bettington and daughter, Miss Betty Bettington, returned yesterday and are at their Oak Knoll mansion. They made Lake Louise their headquarters while away. Their son, William J. Bettington, Jr., is returning today from Culver Military Academy for a two weeks' vacation.

Invitations for Wedding Out

Mr. and Mrs. C. A. Buffum of Long Beach have issued invitations for the marriage of their daughter, Miss Dorothy Buffum, to Norman Chandler, which is to take place at the First Congregational Church in Long Beach Thursday, the 30th inst., at 2 o'clock in the afternoon.

To Make World Tour

Mrs. George A. Ralph and daughter, Miss Annabelle Ralph, are leaving for a tour of the world. In the meantime they are being extensively entertained. Tomorrow Miss Annabelle Ralph is to give a luncheon for Miss Gertrude at the Betty Bolton Tea Room. Tomorrow evening Mr. and Mrs. William H. Hunkins are to give a dinner and "dinner party" for Mrs. Ralph and her daughter. They are to be honored guests Thursday at a luncheon and dinner party at which Mrs. Theodore Blodgett is to entertain.

Visiting at Avalon

Mrs. Willis B. Mitchell and her daughter, Miss Louise Budd Mitchell, and their house guest, Miss Mary Waggenknight of Maine, are spending the next two weeks at Avalon. Miss Mitchell and Waggenknight visited their uncle, Col. Arthur D. Budd, in Paris, France last year and the latter has just returned from abroad.

Return from San Francisco

Mr. and Mrs. Thomas Lee Woolf returned yesterday from a week's visit in San Francisco, where they were much entertained. Mrs. Eleanor Martin, leader of Bay City society, gave an elaborate dinner Sunday evening in their honor.

Mrs. Barker Entertains

Mrs. Robert Barker of 245 South Normandie avenue gave a bridge luncheon yesterday in honor of Mrs. Charles McCourt and Mrs. John Phillips of Louisville, Ky., who are visiting Mrs. C. C. Raymond. Plates were arranged for twelve about a table beautifully adorned with early autumn flowers.

Returning Next Month

Mrs. Samuel Moody Haskins, who has been touring Europe since last June, is expected home next month.

To Make North

Mr. and Mrs. F. Marion Terry and their two attractive children, Mr. and Mrs. Terry, are planning to motor to San Francisco the last of the month, where they will spend two weeks visiting Mrs. Terry's brother and sister-in-law, Mr. and Mrs. R. M. Scott. They expect to bring back with them their small niece, Evelyn St. John.

Wedding Invitations Out

Mr. and Mrs. of 245 South Normandie avenue gave a bridge luncheon yesterday in honor of Mrs. Charles McCourt and Mrs. John Phillips of Louisville, Ky., who are visiting Mrs. C. C. Raymond. Plates were arranged for twelve about a table beautifully adorned with early autumn flowers.

Mrs. Hale Entertains

Mrs. William T. Hale is entertaining a group of friends at luncheon today at her summer cottage in Balboa. Her guests will motor over in time for luncheon and will pass the afternoon playing bridge.

Enjoying Vacation at Avalon

Among the Los Angeles colony at Avalon are Mrs. U. E. Del Valle, Mr. and Mrs. Chester Turner Hoag, Mrs. Earl and a group of the debutante set, including Misses Katherine Phillips, Dolly Greens, who is with her parents, Mr. and Mrs. Burton Edmund Green, and Miss Virginia Gaylord and others.

Mr. and Mrs. William T. Bishop, Jr. and their daughter, Miss Virginia Bishop, have returned. Mrs. Bishop, who has been ill, is much improved.

Give Supper Party

Mr. and Mrs. C. E. Hubach (Olla Steeb) gave a jolly supper at their home in South Wilton Place in honor of Sascha Jacobsohn.

The Old
Carriage Maker
Had an
Important Truth

"To make each part as strong as the rest," was his way of "building a wonderful, one-piece chaise that wouldn't wear out till judgment day."

This illustrates a fact that is keeping many doctors busy these days—human bodies, like chaises, break down because some part isn't as strong as the others.

Very often it's because of ill-balanced food, lacking in some important element of nutrition. This is especially true of ill developed in childhood, and carried on through life.

Grape-Nuts, that world-famous, ready-to-eat cereal brings the plan of building each part as strong as the rest to serve human need. Grape-Nuts contains all the nutriment of those best of the field grains, wheat and barley, including the vital mineral elements, and it is a wonderful food for building and sustaining health and strength.

The delicious flavor and crispness of Grape-Nuts make it a welcome dish whenever you're hungry.

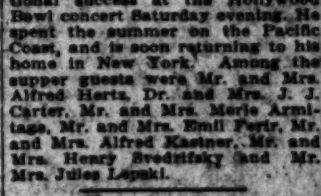

Grape-Nuts THE BODY BUILDER

Food portions often ample for two!

OUR fifteen-cent combination salad is a good example, so is "a serving" of roast meat, an order of strawberry shortcake and—we might mention dozens of other delectable dishes.

If you eat breakfast here you are familiar with our unusually large slices of toast. You know, too, that a pot of coffee such as we serve for eight cents is nearly the equivalent of two full cups.

Some people think our food portions are too big. We make them generous ones purposely. You may share them with some member of the family if you like. This sharing of portions makes the cost to you actually less than our customary low prices.

Look for the name, BOOS BROS. It is your assurance of plentiful helpings.

SUNDAY "INSPECTION DAY"

Campaign Workers and Public Invited to Visit Nearly Completed "Times" Prize Bungalow

Sunday will be "Inspection Day" at The Times' \$6000 prize bungalow in West Hollywood tract. Construction work is nearing the final stages and the builders and landscape engineers announced yesterday that the last touches would be placed on the bungalow by the end of this week.

Candidates in The Times \$70,000 prize campaign, in which the bungalow is given as one of the prizes, are urged to visit West Hollywood Tract Sunday so they may see for themselves what this home will look like. The public is also cordially invited to come out on "Inspection Day."

Many candidates have announced their intention of visiting the bungalow Sunday and giving it a careful inspection. The Western Construction Company, its builders, have incorporated in its features not usually given to the average home, but the result that the winning candidate will possess in this home even more than that word implies.

PARQUET FLOORS
Electrical fixtures and how being installed. More than \$1200 was expended on this item alone. The parquet floors have been laid by the Hammond Lumber Company, and the various other sub-contractors have about completed their share of contributing to this house.

The bungalow is reached by taking the red line cars at Hill street and marked "Santa Monica" via Hollywood Tract. "South Hollywood—Santa Monica Boulevard." Get off at Melrose station.

Antelope should drive out Santa Monica Boulevard to West Knox Drive, then to the left for two blocks.

LAST DAY
Today is the last day on which new nominations will be accepted in The Times' \$70,000 prize race, now nearly at the end. The nomination blank appearing elsewhere in The Times, together with the standings of contestants, makes its last appearance today, and those contemplating entering the campaign and winning part of the \$70,000 prize must have their names in the campaign office or in the mails by 9 o'clock tonight.

With the last \$20 club and gold offer, which lasts only until Saturday, the 26th inst., 9 p.m., as a stepping stone to success, there are 600 votes above the usual votes, and candidates are correct in surmising that this provides the opportunity to amass the winning votes.

COMPETITION KEEN
Competition is keen to win the extra prize of \$100 in gold, which is to be the reward of the candidate turning in the most money in new subscription payments during this special offer. The remarkable closeness that has featured the last few days of the campaign continues to make it highly uncertain as to who will win this extra prize.

Second payments are proving another boon to candidates in the matter of getting votes. Many subscribers for short terms are aiding their favorites by extending their subscriptions to longer periods.

With the end of the campaign rapidly approaching and the necessity for concerted action becoming increasingly important, candidates are appointing campaign managers in many instances in order to be certain that nothing in the way of votes will be overlooked.

All necessary preparations are being made at the campaign office to care for the many \$20 clubs that candidates have served notice they will turn in from now until Saturday night, and the forthcoming days promise to eclipse all previous records.

Assorted Bank Wrecker Says He Isn't Guilty
Alva E. Smith, wanted on charges of bank wrecking by swindling in Oklahoma, Arizona and Nebraska, left San Diego for Los Angeles yesterday in company with Sheriff A. W. Freeman of Colgate, Okla., but it is not at all certain that Smith is going to that State, although he said in San Diego that he would not fight extradition. His attorney here, John E. Cooper, yesterday asked Governor Stephens for a hearing on the requests of the Arizona and Oklahoma governors for extradition.

Smith, who arrived from Mazatlan, Mex., at San Diego Monday, denies his guilt, declaring that when he was at Colgate, Okla., he failed to have severed connection with it. He also told Sheriff Byers of San Diego that he was merely a heavy stockholder in the State bank at Parker, Okla., which also failed.

The specific charge, as far as the Oklahoma case is concerned, is that Smith embezzled \$4500 from a national bank at Colgate.

CONFESSES FEEDING MINOR GIRL "HOOCH"
YOUNG WOMAN AND YOUTHS ARRESTED AS RESULT OF BEACH PARTY

By a "Times" Staff Correspondent (EXCLUSIVE DISPATCH)
LONG BEACH, Aug. 3.—Mrs. Clara Baird, comely young matron of 35, will be arraigned in police court here tomorrow morning on a charge of giving liquor to a minor in violation of the State Penal Code. Mrs. Baird, who with two youths, was arrested Sunday afternoon after Miss Cornelia Searcy, 16-year-old waitress, was found unconscious on the beach, entered a plea of guilty to the charge yesterday.

She will not be sentenced until Earl Kelley and Cal Smith, the accused youths, have been tried on a similar charge. The testimony in court revealed that Mrs. Baird, the two young men and the Searcy girl went on a "party" Sunday afternoon, during which all partook of liquor. The beverage proved too much for the 16-year-old Searcy girl.

FOR return of light wine and beer, Frank A. McDonald for Oregon.

SECURITIES ACT GIVEN NEW LIGHT
Phase Not Previously Up in Court Ruled Upon When Defendants Appear

Deciding upon a phase of the Corporate Securities Act that previously had not been before the courts, Justice Follette yesterday held to answer E. E. McCalla, head of the E. E. McCalla company, and Mrs. C. R. Greenlee, C. A. Dye and P. H. Farson, salesmen. The four are accused of violating the act.

The action in holding the defendants to answer, it was stated, will affect the act's operation through which companies sell interest in oil property through the operation of a real estate enterprise.

It was held by Justice Follette that, even though the company is said to have sold real estate with participating profit from possible oil, it was nevertheless a violation of the act if the company did not have a permit from Commissioner Daugherty.

The three salesmen were released on their own recognizance but bail was fixed at \$2500 for McCalla. He furnished the bail.

ACCUSED OF FORGERY
J. P. McCarthy to a check for \$42.50 to make the first payment on an automobile R. B. King, was held yesterday by Justice Follette. Bail was fixed at \$1000.

Plan Your Store to Increase Sales

One merchant availed himself of the Weber Store Planning Service, increased his business 50% and actually cut overhead.

Weber offers the most expert service of the kind on the Pacific Coast.

To utilize space—to show goods—to give your salesmen their best chance to "make good," take advantage of this unique service.

Install Weber units in your various departments—watch these modern, beautiful and scientific cases pull more business.

Weber standardized methods mean higher quality and lower prices.

Weber Showcase & Fixture Co.
